*Pour le Sport* Roxanna Curto, Rebecca Wines, 2021-11-03 This edited volume gathers together studies examining various aspects of physical culture in literature written in French from Europe and around the Francophone world We define physical culture as the systematic care for and development of the physique and interpret it to include not only sport in the modern sense but also all the athletic activities that preceded it or relate to it such as bodily forms of exercise leisure and artistic creation Our essays pursue diverse interpretive approaches and focus on texts from a wide variety of periods medieval to the present and genres short stories novels essays poetry in order to consider the fundamental yet highly neglected place of physical activities in literature and culture from the French speaking world Some of the questions the essays explore include Does the genre sports literature exist in French and if so what are its characteristics How do governments or other political entities mobilize sports literature What role do narratives about sports especially the creation of teams play in the construction of national regional and or local identities How is physical culture used in literary works for pedagogical or ideological purposes To what extent do sports performances provide a metaphorical and figurative discourse for discussing literature and culture

**Academy, with which are Incorporated Literature and the English Review**

,1882     *The academy*, 1883     **New Perspectives on Marc-Antoine Charpentier** Shirley Thompson, 2017-07-05 The tercentenary of Marc Antoine Charpentier's death in 2004 stimulated a surge of activity on the part of performers and scholars confirming the modern assessment of Charpentier 1643-1704 as one of the most important and inventive composers of the French Baroque. The present book provides a snapshot of Charpentier scholarship in the early years of the new century. Its 13 chapters illustrate not only the sheer variety of strands currently pursued but also the way in which these strands frequently intertwine and generate the potential for future research. Between them they examine facets of the composer's compositional language and process, aspects of his performance practice and notation, the contexts within which he worked and the nature of his legacy. The appendix contains a transcription of the inventory of Charpentier's manuscripts prepared when their sale to the Royal Library was negotiated in 1726, an invaluable research tool. As numerous chapters in the book demonstrate, the wide variety of topics covered here will appeal both to readers interested in Charpentier's music and to those with a broader interest in the music and culture of the French Baroque, including aspects of patronage, church and theatre. Far from treating his output in isolation, this book places it in the wider context alongside such composers as Lully, Lalande, Marais, Fran  ois Couperin and Rameau; it also views the composer in relation to his Italian training. In the process, the under-examined question of influence, who influenced Charpentier, whom did he influence, repeatedly comes to the fore. The book's Foreword was written by H. Wiley Hitchcock shortly before he died. Hitchcock's own part in raising the profile of Charpentier and his music to the level of recognition which it now enjoys cannot be emphasized enough. Appropriately, the volume is dedicated to his memory.
