Leadership Power And Consequences:

Leadership Sy Ogulnick,2018-10-01 Advice for leaders in every arena of life on facilitating problem solving creativity innovation and a sense of mutual ownership The answer to resolving a problem in any relationship is likely found where the power is located Who are the true leaders what are their expectations and how well do they communicate with those they lead And how well and candidly do those significant to the leader communicate back This is where trust safety and respect play a huge role in how the relationship plays out and either grows mutually or is destructive mutually Most leaders tend to communicate badly have unspoken or inflexible expectations towards those they lead and blame others for their own failings Leadership Power and Consequences confronts this problem of leadership directly and clearly by using Sy Ogulnick s personally experienced stories He clearly describes the path leaders must take if they are to personally grow to understand themselves better and to contribute to the growth of those they lead When authentic communication takes place between those in power and those immediately at the effect of this power trust safety and respect are felt by everyone involved This must be found in the environment or genuine dialogue between them is impossible and will not even at the point of a gun take place And it is the leaders who are primarily responsible for the creation of the environment Words do not make it so but action behavior of the leaders does The SAGE Encyclopedia of Leadership Studies George R. University language English abstract Women are still significantly underrepresented in Top Management positions and leadership is still associated with the male gender as leadership theories traditionally focus on men This is especially evident in China which has one of the world s highest female labor participation but a female share of only eight percent on the corporate boards Although Chinese women s tertiary educational attainment is now equal to the tertiary education of Chinese men they still face many barriers on their way to the top The strong influence of Confucian values perceiving women as inferior to men remains noticeable until today and women find themselves exposed to a strongly patriarchal business environment As being traditionally the main care givers of their families they are deemed to be expensive potential mothers and thus gender preference can be observed second Classical leadership theories of the Western culture as well as of the Chinese culture are introduced to provide a common understanding of their approaches Further the situation of women in the past and of today is being compared as well as their leadership styles access to managerial leadership positions and the barriers they face Since educational attainment of both genders does not explain why women are rarely found on the upper managerial ranks other reasons that could be a barrier for women s career advancement are examined in this research
