Edward Shizha Associate Professor Wilfrid Laurier University Brantford Campus *African Womanhood and the Feminist Agenda* Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2024-01-16 Within academic circles there is a longstanding issue concerning the portrayal and understanding of African womanhood. Frequently these narratives are crafted by outsiders, predominantly Western scholars, often distorting the lived experiences and unique perspectives of African women. This has led to a skewed and sometimes negative perception of African women, reinforcing stereotypes and sidelining their voices in critical discussions. Moreover, this misrepresentation has real-world consequences as it impacts social justice initiatives and development projects that rely on misguided narratives rather than the authentic voices of African women. *African Womanhood and the Feminist Agenda* emerges as an essential solution to the misrepresentation of African women. This comprehensive and meticulously researched book offers an alternative narrative, one that is rooted in African perspectives and experiences. It addresses the historical, cultural, and political dimensions of African womanhood, providing a rich and nuanced understanding of this multifaceted topic.

Bone and joint infection: past, present, and future Hongyi Shao, Guoli Hu, Chaofan Zhang, Chi Xu, 2024-04-09 Bone and joint infections (BJI) cause serious morbidity and pose significant management challenges. They may cause acute sepsis with bone and joint destruction, discharging wounds, chronic pain, and permanent disability. With increasing age and expanding populations, bone and joint infections, especially those involving devices, will have a growing impact on healthcare resources. Specifically, one typical type of BJI, periprosthetic joint infection, is even more difficult to manage. Although the incidence of PJI is not high, the diagnosis is difficult, the treatment is complicated, and the efficacy is uncertain. Patients usually need to undergo multiple operations with long-term antibiotic treatment.
