Melodica for Absolute Beginners. Play by Letter. Learn to Transpose

Helen Winter, The Melodica is one of the best educational instruments The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica or an accordion This book is for kids or adults who are absolute beginners in music We tried to write it as simply as possible That is why we use an easy to play visual aid so any beginner can play music quickly Neither kids nor their parents have to read sheet music or have a musical background No previous knowledge is necessary None at all Every song has a large and simple color and letter coded visual along with traditional sheet music The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music We try to make this transition as easy as a game where children advance to higher levels themselves There is a total of 22 songs and 3 options to help children to begin to play right away PLAYING BY COLOR CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff The helpful letters are always above the notes There are 3 parts in this book They are equal to 3 levels Level 1 Songs that are played in one octave All songs here appear twice once written with circles and the next time with classic music notes This will help kids remember the staff notes For example Mary Had a Little Lamb Ver 1 CIRCLES Mary Had a Little Lamb Ver 1 NOTES Level 2 In this part you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation For example Hot Cross Buns Ver 1 CIRCLES Hot Cross Buns Ver 1 NOTES Hot Cross Buns Ver 2 NOTES Here the player will play songs in a different key and learn to transpose

Generally the version of the song written with sheet music is a little bit more complex than a letter coded version. Such versions already have music notations such as rests or beams etc. You can find an illustrated explanation of the notation at the end of this book Level 3. Here the first two songs are versions of the same melody different combinations of notes written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all this book is addressed to newcomers to any keyboard instrument such as Piano or Synthesizer not only Melodica. Also it is a perfect self training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba marimba xylophone glockenspiel or even color bell set.

Play Xylophone by Letter Helen Winter, Our sheet music is not for a specific xylophone but it is universal and suitable for most 8 25 note xylophones. This book is aimed at those new to music and musical instruments whether child or adult. It allows for simple and easy learning that requires no previous knowledge of reading music. The letter notation makes it possible for you or your kids to confidently begin playing. Our other books make it easy to play the xylophone with colored circle letter notation. This book however includes classic note symbols so that students can begin to learn the reading of musical notes including a musical notation showing note length connection etc. Most songs in this sheet music book can be played within one octave on the xylophone using only 8 notes. Several songs need 1 5 or 2 octaves or a 10 15 note xylophone. This percussion instrument develops not only a musical ear but also gross and fine motor skills and cognitive skills such as letter recognition matching and patterns. Attention Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. If you have flat keys on your instrument
