Longman Academic Writing Series 4 SB with Online Resources Alice Oshima, Ann Hogue, Lara Ravitch, 2016-09-19

The Longman Academic Writing Series helps develop student writing from basic composition of sentences and paragraphs to academic essays and research papers. At each level, students are offered guidance in the complete writing process from prewriting to revision and are provided with clear explanations, extensive practice, and consistent coverage of sentence mechanics and grammar. Highlights: Step by step approach helps students produce a well organized, clearly developed portfolio that is the foundation of academic coursework. Realistic writing models guide writers while clear explanations supported by examples help students through typical rough spots. Extensive practice helps students assimilate writing skills to learn to write with accuracy and confidence. Timed writing activities provide a plan for writing paragraphs on tests. Interactive tasks such as pair and group work allow students to receive peer feedback on their individual writing. Level 5 offers more advanced guidance in the writing of essays and research papers. New Essential Online Resources include grammar for writing and sentence structure activities, teacher support material, teacher's manual, and assessments.

Amazon.com viewed August 3, 2020. **ENGLISH WRITING DEVELOPMENT** LIXIA WEI, 2018-02-13. English Writing Development 4MAT Learning Style and Thinking Visualization Strategies is designed as an introductory course in English writing for students, teachers, and all those who consider writing is important and fun. It is based on the author's own experience of teaching English writing to undergraduates who major in English and training students to participate in provincial and national English writing contests. Instead of showing the skeleton of writing to readers directly, the author integrates the 4MAT Process Approach that she has developed on the basis of the 4MAT learning style and the Process Approach into the design of the book, aiming to increase learners' motivation by answering why they should learn, what they should learn, how they should apply what they have learnt, and what if the situation changes. In each chapter, with corpora, news, and students' work as resources to collect sample sentences, paragraphs, and essays, the author elaborates eight main aspects which are: writing process, writing a paragraph, writing an essay, methods of paragraph development, types of clause, types of sentence, rhetorical devices, paraphrase, and summary. English Writing Development 4MAT Learning Style and Thinking Visualization Strategies is not only the ideal English writing textbook for students at different levels but also functions equally well as a self-tutoring textbook. The simple, reader-friendly explanations coupled with interesting and meaningful examples, figures, tables, and the checklists are of great help for the learners to make

progress on their own Armed with the strategies elaborated in the book learners most probably will find that WRITING IS FUN
