The Samaritan's Dilemma Clark C. Gibson, Krister Andersson, The late Elinor Ostrom, Sujai Shivakumar, 2005-09-08 What's wrong with foreign aid Many policymakers aid practitioners and scholars have called into question its ability to increase economic growth alleviate poverty or promote social development At the macro level only tenuous links between development aid and improved living conditions have been found At the micro level only a few programs outlast donor support and even fewer appear to achieve lasting improvements The authors of this book argue that much of aid's failure is related to the institutions

that structure its delivery These institutions govern the complex relationships between the main actors in the aid delivery system and often generate a series of perverse incentives that promote inefficient and unsustainable outcomes In their analysis the authors apply the theoretical insights of the new institutional economics to several settings First they investigate the institutions of Sida the Swedish aid agency to analyze how that aid agency's institutions can produce incentives inimical to desired outcomes contrary to the desires of its own staff Second the authors use cases from India a country with low aid dependence and Zambia a country with high aid dependence to explore how institutions on the ground in recipient countries also mediate the effectiveness of aid Throughout the book the authors offer suggestions about how to improve aid's effectiveness These suggestions include how to structure evaluations in order to improve outcomes how to employ agency staff to gain from their on the ground experience and how to engage stakeholders as owners in the design resource mobilization learning and evaluation processes of development assistance programs

Macroeconomic Control in Liberalizing Socialist Economies Ronald I. McKinnon, 1992 The paper first seeks to understand how the preexisting system of financial control under Stalinist central planning actually worked and why it tends to breakdown once liberalization begins Than more effective monetary and fiscal measures for containing inflation in a more gradualist approach to liberalization of the socialist economy with special references to China Vietnam and Laos is spelled out Abstract
