Khanyisa Axillary Nursing Course:

The Auxiliary Nurse's Guide J. C. Stevenson, 1993 This handbook accommodates the South African Nursing Council's instructions and guidelines concerning the auxiliary nurse's training and scope of practice. The 11 chapters are split into several units, each focusing on a specific procedure or topic. Each unit starts with a statement of its educational aims, making it easier for the auxiliary nurse to carry out her/his tasks and for the educator to evaluate progress. The author cites reference sources at the end of each chapter to assist both the learner and the mentor. Explanatory illustrations accompany the straightforward and clearly written text. *The Auxiliary Nurse* H. M. Erasmus, Liezel Booysen, Van Zyl, M. D. (Magda), 2004-03 The Auxiliary Nurse covers the entire curriculum for learners preparing to write the South African Nursing Council (SANC) examination. Arranged in learning units, the book uses an outcomes-based educational strategy to guide both learners and lecturers to essential information. This richly illustrated text has sections on the history of nursing, anatomy and physiology, basic nursing, food and nutrition, first aid, and comprehensive health care, which has a strong emphasis on community nursing. **The Auxiliary Nurse** Liezel Booysen, Ina Erasmus, Van Zyl, M. D., 2013-05 This updated edition of *The Auxiliary Nurse* expands and builds on the previous as, in addition to covering the entire curriculum for learners preparing for the South African Nursing Council examinations, the work also offers more in-depth information that leads to greater understanding of content. A new chapter on vulnerable groups and the latest information on topics such as CPR, first aid, breastfeeding, and HIV have been added, as well as information on the latest developments in healthcare such as evidence-based practice and integrated care pathways. This edition features clear, accessible language, numerous illustrations to simplify the study of anatomy and physiology, and learner activities that are aimed at putting theory into practice.
