### Critical Items:

The following items are critical to successful whole-grade acceleration. This form may also be used for subject based acceleration, as appropriate. If any of these items apply to the student in question, whole-grade acceleration is not recommended. However, we strongly encourage the team to complete the IAS in order to use the information to consider curricular alternatives for accelerating the student's academic experiences. **If any one of these items is checked, please proceed to the conclusions/next steps section on the last page.**

- ☐ The student's ability was measured by a cognitive abilities assessment and is less than one standard deviation above the mean.
- ☐ The student would be accelerated into the same grade as (or a higher grade than) a sibling.
- ☐ The student presently has a sibling in the same grade.
- ☐ The student indicates that he/she does not want to be whole-grade accelerated.

Please carefully research and respond to the following considerations. Place a check next to each topic as it is discussed and expand on any response you deem necessary.

Callahan, Holly L. Hertberg-Davis, 2013 The field of gifted education is characterized by a confusing array of perspectives concerning such fundamental issues as definition philosophy curriculum social and emotional development and underserved populations The mission of this book is to provide a coherent framework that instructors and service providers can use in planning effective programs providing appropriate counseling services and evaluating programs for the gifted Most sections are organized around fundamental issues confronting the field and follow a common structure an introductory chapter that provides historical and theoretical background and organizing questions followed by several point

of view chapters written by experts that provide varied perspectives on the topic at hand Distinguishing Features Comprehensive Coverage The book's forty five manageable length chapters cover the full range of topics that must be considered in planning programs and services for gifted students both within and outside of school Coherent Structure Section introductions provide background information and organizing questions to guide chapter authors who provide varying views of the issue at hand The emphasis is not on the right way or the wrong way except when clearly documented bad practice is discussed but on how best practice stems from well informed and logical decision making Decision Making Focus The book's introductory chapter addresses the need for a clearly developed and consistently applied set of values to guide decision making Likewise each section introduction includes a decision making framework regarding some aspect of educating counseling or parenting gifted students This book is appropriate for introductory level courses in gifted education or courses in program development and planning It is also suitable for school personnel responsible for making program planning decisions in the area of gifted education and for academic libraries with holdings in this area
