Révolutions et droits de l'homme,2016-12-13 Il y a quelques années, encore, s'interroger sur les rapports entre les droits de l'Homme et le concept de révolution aurait pu être jugé d'un peu de travers, voire trahir un vieux fonds nostalgique. Pourtant, depuis la chute du mur de Berlin, des observateurs avisés s'accordent pour qualifier un nombre significatif de phénomènes politiques, technologiques, économiques ou sociaux de transformations majeures ou de révolutions. Le mot révolution est dorénavant rapidement brandi pour désigner un événement dont il est pressenti ou voulu qu'il bouleverse un ordre ou des certitudes établies. Parallèlement, la période se caractérise par un fort tropisme tant de la part des juristes que des nouvelles formes de revendications politiques et sociales pour le vocabulaire des droits et libertés. Les interactions qui se dessinent alors entre ce qui est identifié comme une révolution et les droits de l'Homme adoptent des formes complexes et ambivalentes. C'est ce qu'il propose de montrer ce volume.

La Déclaration Des Droits De L'homme De 1793 Émile Acolas,2023-07-18 Une analyse de la Déclaration des droits de l'homme et du citoyen de 1793, un document essentiel de la Révolution française qui a eu une influence majeure sur les droits de l'homme dans le monde entier. Émile Acolas examine les principaux articles de la Déclaration et leur signification historique et politique. This work has been selected by scholars as

Droits de l'homme Encyclopaedia Universalis, Les Grands Articles, 2015-10-28 Il n'est aujourd'hui aucune organisation politique qui ne se prvalue de son souci de réaliser les droits de l'homme Longtemps limitée par les cadres nationaux cette préoccupation s'est affirmée sur le plan international lorsque le 10 décembre 1948 l'Assemblée générale des Nations unies a voté sous le titre de Déclaration universelle des droits

Bercis, 2000-01-01T00:00:00+01:00 Tout le monde ou presque se réfère aujourd'hui aux droits de l'homme Les principes de la Déclaration de 1789 et ceux de la Déclaration universelle de 1948 ne sont guère contestés Et pourtant ces textes n'ont empêché ni le Goulag ni le Cambodge ni le Rwanda ni la Yougoslavie ni l'Algérie ni le Tibet Et de nouvelles menaces plus insidieuses apparaissent les nouveaux développements des biotechnologies la prégnance croissante des mécanismes financiers sur l'économie la multiplication des réseaux de communication sont autant de défis pour l'homme et son environnement Devant ces constats faut-il s'arc-bouter sur des textes anciens ou plutôt élargir les droits de l'homme aux attentes du nouveau siècle Pierre

Bercis propose d'adopter une démarche offensive en matière de droits de l'homme. Il décrit dans cet ouvrage les chantiers : venir le droit, la paix, un environnement sain, le droit à l'intégrité physique, psychique et génétique, au respect des cultures, le droit de tout salarié de participer aux décisions économiques qui le concernent. En interpellant vigoureusement les citoyens, les hommes et les femmes politiques, cet ouvrage plaide pour l'adoption par le Parlement français d'une extension de la Déclaration des droits de l'homme. Celle-ci permettrait d'identifier les enjeux du futur puis serait proposée dans les instances européennes et mondiales.

Déclaration des droits de l'homme et du citoyen Jimmy Meersman, Rémi Puigventos, 2019-02-01. Le 26 août 1789, l'Assemblée constituante adopte les derniers articles du texte de la Déclaration des droits de l'homme et du citoyen qui traversent les siècles et deviendra l'un des textes fondamentaux de la Cinquième République. Si la Déclaration de 1789 est l'une des pierres angulaires de la garantie des droits de l'homme, l'étude de sa portée et de son actualité interroge. Le présent ouvrage contribue en dévoilant les éléments les plus essentiels au travers d'une douzaine de contributions.

Le culte des droits de l'homme Valentine Zuber, 2014-03-06. La Déclaration des droits de l'homme et du citoyen ouvre clair du

mois d'août 1789 est devenue dès sa promulgation l'un des symboles révolutionnaires les plus populaires en France et l'étranger. Vritable vangile des principes sacrés de la République française elle a immédiatement été considérée comme l'indispensable abrégé du catéchisme de la formation politique des futurs citoyens. Le souci constant de son affichage et de sa diffusion en France depuis la Révolution jusqu'à nos jours montre encore l'exceptionnelle confiance en ce texte singulier finalement constitutionnalisés. La sacralisation implicite de la Déclaration des droits révolutionnaire devenu républicain pose la question de l'existence d'une forme de religion civile dans la République en dépit de sa laïcité revendiquée. Le culte des droits de l'homme laborés les premiers mois de 1789 s'est en effet constamment perpétué dans la tradition républicaine du centenaire de 1889 au bicentenaire de 1989 jusqu'à l'exaltation plus contemporaine de la France pays des droits de l'homme.

Burke, Marx, Arendt et la critique des droits de l'homme Hyacinthe E. Nogbou, 2017. Les droits de l'homme sont un ensemble normatif qui donne tout être humain des droits universels et inaliénables malgré les différences religieuses, raciales, ethniques ou nationales. Ces droits sont reconnus aux hommes au-delà des droits positifs des différents États. De manière fondamentale, ils sont une garantie contre l'exercice arbitraire du pouvoir. Ils sont la réaffirmation forte de la galité et de la liberté sans lesquelles on ne peut construire une société démocratique et forte. Malgré cette posture, les droits de l'homme se retrouvent en quelque sens. Le présent ouvrage propose de voir les inflexions des droits de l'homme face au pouvoir des nouvelles puissances face à la plénitude de l'État-nation de façon générale mais principalement face à l'État africain. Comment partir des critiques d'Edmond Burke, de Karl Marx et de Hannah Arendt pour penser la réalité des droits de l'homme ? Quel commerce ces trois grands penseurs des droits de l'homme entretiennent-ils ? Source 4e p de couverture

Libertés publiques et droits de l'homme Arlette Heymann-Doat, Gwénaële Calvès, 2008. L'ouvrage montre comment les libertés en France ont été façonnées par l'histoire depuis la Révolution et comment après la descente aux enfers aboutissant à la Seconde Guerre mondiale de nouvelles garanties ont été mises en place, notamment par les traités internationaux. Ces dernières années de nouveaux droits ont été définis pour faire face aux risques nouvellement présentés par les puissances privées, les nouvelles technologies de la communication ou les progrès de la biologie et de la médecine. Le caractère composite de la catégorie des droits économiques et sociaux est mis en lumière. On y trouve la fois les droits des travailleurs et les droits à la solidarité ou la protection dont sont notamment titulaires les enfants.

Le monde d'alors était marqué par l'Holocauste et divisé par le colonialisme et la logique des blocs. C'est-à-dire si ces droits ont d'abord été un projet d'ordre plutôt qu'un patrimoine à sauvegarder.
