Microbiology Experiments

A HEALTH SCIENCE PERSPECTIVE

Anna Oller | John Kleyn

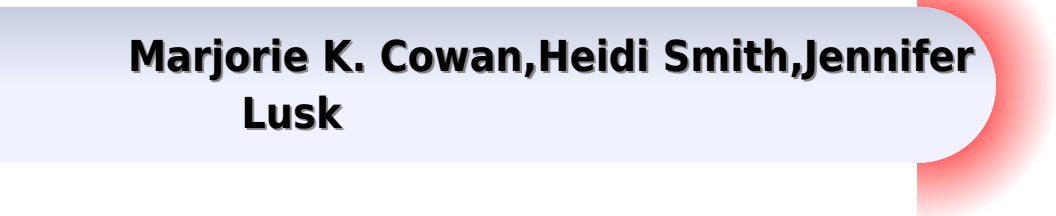

The cover features a detailed scanning electron micrograph (SEM) of a cell surface. The surface is covered in a complex network of blue, wavy, and fibrous structures. Four large, spherical, reddish-purple particles, likely viruses or bacteria, are prominently displayed on the surface. One sphere is in the foreground, slightly to the left, and another is to its right. Two more spheres are positioned slightly behind them, one to the left and one to the right. The background is a solid black, which makes the blue and purple structures stand out.
