*Youth, Education, and Islamic Radicalism* Mun'im Sirry, 2024-03-15 *Youth Education and Islamic Radicalism* offers groundbreaking analysis of religious intolerance and radicalization among high school and university students in modern-day Indonesia. Indonesia is one of the most diverse countries in the world in terms of religion, ethnicity, and socioeconomic status, but also in the complexity of its education system. *Youth Education and Islamic Radicalism* examines the roots of religious intolerance among young Indonesians and explores the various ways in which educated youth navigate radical ideologies amid growing religious conservatism. The book presents nuanced explanations as to why one person becomes radicalized while another does not, calling into question the common assumption that religious radicalism is directly connected to terrorism. It problematizes the notion that the university is a significant hub, trigger, or birthplace of radicalization by asking: What makes education attractive for extremist recruitment? What shapes students' views? Under what circumstances do radicalization and deradicalization processes of educated youth take place? *Youth Education and Islamic Radicalism* identifies a constellation of factors that shape young people's views of religious diversity in Indonesia, demonstrating the ways in which they become radicalized in the first place and how, in some cases, they deradicalize themselves.

**Forthcoming Books** Rose Arny,1999      **Beyond Self-esteem** Thomas J. Cottle,2003 In *Beyond Self Esteem* Thomas J Cottle argues that America s preoccupation with notions of self esteem and self regard not only does not reflect the fundamental nature of the self but leads to selfish behavior and an inability to devote one s self to friendships The self Cottle writes is predicated on social relationships and more specifically on the affirmation each of us offers to the other as well as the degree of responsibility we find ourselves willing to take for one another It is Cottle s contention reinforced by his theoretical positions and by the narrative accounts of children and adults alike that affirmation of and the assumption of responsibility for other people remain the most ethical human actions      **Subject Guide to Books in Print** ,2001
