The financial statements are the culmination of the financial reporting process.

Q1-3 Capital is a scarce resource. Investors and creditors have to make decisions as to how much capital to invest in any given entity; therefore, they demand relevant and faithfully representative information about the economic performance and position of a company. This information is provided in the financial statements.

Q1-4 External auditors ensure that the management of a company has prepared financial statements in accordance with Generally Accepted Accounting Principles and fairly present the financial position and economic performance of a company. In addition, external auditors must be an independent party and cannot be employees of
