Remy,      **My Reflections on Civics** ,2013      **Young People's Civic Identity in the Digital Age** Julianne K. Viola, 2020-03-10 This book explores young people's civic experiences in contemporary American society and how they navigate the political world in an era defined by digital media. Drawing on the experiences of young people before they have reached voting age, the book provides vital perspectives on citizenship and civic engagement of a part of the population that is often overlooked. The author engages with the tensions young people encounter in their everyday personal and civic lives, particularly in their understanding and experience of civic identity in ways that are shaped by society's misperceptions of youth. The book introduces a new framework of civic identity that has been directly informed by the lived civic experiences of young people themselves. The findings will be of great interest to researchers and students working in political science, sociology, youth studies, education studies, and media studies, as well as policy makers, practitioners, and parents of young people.      **Anti-Black Literacy Laws and Policies** Arlette Ingram Willis, 2023-05-30 A COUNTERNARRATIVE This groundbreaking book uncovers how anti-Black racism has informed and perpetuated anti-literacy laws, policies, and customs from the colonial period to the present day. As a counternarrative of the history of Black literacy in the United States, the book's historical lens reveals the interlocking political and social structures that have repeatedly failed to support equity in literacy for Black students. Arlette Ingram Willis walks readers through the impact of anti-Black racism's impact on literacy education by identifying and documenting the unacknowledged history of Black literacy education, one that is inextricably bound up with a history of White supremacy. Willis analyzes, exposes, illuminates, and interrogates incontrovertible historical evidence of the social, political, and legal efforts to deny equal literacy access. The chapters cover an in-depth evolution of the role of White supremacy and the harm it causes in forestalling Black readers' progress, a critical examination of empirical research and underlying ideological assumptions that resulted in limiting literacy access, and a review of federal and state documents that restricted reading access for Black people. Willis interweaves historical vignettes throughout the text as antidotes to whitewashing the history of literacy among Black people in the United States and offers recommendations on ways forward to dismantle racist reading research and laws. By centering the narrative on the experiences of Black people in the United States, Willis shifts the conversation and provides an uncompromising focus on not only the historical impact of such laws and policies but also their connections to present-day laws and policies. A definitive history of the instructional and legal structures that have harmed generations of Black people, this text is essential for scholars, students, and policymakers in literacy education, reading research, history of education, and social justice education.      **Florida Schools** ,1961      **The Civic Education of American Youth** Policy Research Project on Civic Education Policies and Practices, Kenneth W. Grossman, Wing On Lee, Kerry J. Kennedy, 2008-08-31 Based on case studies of 11 societies in the world's most dynamic region this book signals a new direction of study at the intersection of citizenship education and the curriculum Following their successful volume *Citizenship Education in Asia and the Pacific: Concepts and Issues* published as No 14 in this series the editors widely regarded as leaders in the field in the Asia Pacific region have gone beyond broad citizenship education frameworks to examine the realities tensions and pressures that influence the formation of the citizenship curriculum Chapter authors from different societies have addressed two fundamental questions 1 how is citizenship education featured in the current curriculum reform agenda in terms of both policy contexts and values and 2 to what extent do the reforms in citizenship education reflect current debates within the society From comparative analysis of these 11 case studies the editors have found a complex picture of curriculum reform that indicates deep tensions between global and local agendas On one hand there is substantial evidence of an increasingly common policy rhetoric in the debates about citizenship education On the other it is evident that this discourse does not necessarily extend to citizenship curriculum which in most places continues to be constructed according to distinctive social political and cultural contexts Whether the focus is on Islamic values in Pakistan an emerging discourse about Chinese democracy a nostalgic conservatism in Australia or a continuing nation building project in Malaysia the cases show that distinctive social values and ideologies construct national citizenship curricula in Asian contexts even in this increasingly globalized era This impressive collection of case studies of a diverse

group of societies informs and enriches understanding of the complex relationship between citizenship education and the curriculum both regionally and globally
