Legislature. Assembly. Committee on Corporations, Authorities, and Commissions, 2000 **Regulating Gas Liberalization** Anton Ming-Zhi Gao, 2010-01-01 La 4e de couverture indique Along with aviation and telecommunications the gas supply chain has proved to be one of the paradigmatic factors in the great transformation in regulated industry law that has characterized recent decades The liberalization in the gas market has taken two primary legal forms i removal of entry barriers in competitive sectors and ii regulation of infrastructure sectors through unbundling economic separation of competitive and infrastructure sectors and open access requiring gas infrastructure owners operators to allow competitors to access their facilities on commercial terms comparable to those that would apply in a competitive market This book will focus on the latter legal form This is the first book to analyze in a comparative way the detailed development of the unbundling and open access regimes across three continents It is the author's contention that these two legal forms should be more widely implemented than they are at present In each of five substantial chapters on the United States Europe Japan South Korea and Taiwan the author first focuses on the proposed or current laws and industrial practices on service account functional legal and ownership unbundling and independent system operator and then on those of different open access regimes mainly including regulated and negotiated third party access insofar as they have been developed in each location Using empirical evidence from Europe the United States and Japan that a well formulated and comprehensive liberalization can bring about more advantages than disadvantages he shows how well designed unbundling and open access regimes may accomplish the following inject much needed competition into gas exploration exploitation import production and retailing reform and re regulate non competitive sectors such as transportation distribution and storage balance potential conflicts between energy security and competition and support interests such as environmental protection energy rights safety and consumer protection The author attends throughout to the contrasting market situations in countries that rely on importing natural gas by liquefied natural gas tankers LNG countries and countries with their natural gas mainly coming from production fields via direct pipelines PNG countries Identifying the key legal issues arising from the development of the various unbundling and

open access regimes discussed the book goes on to provide a detailed general legislative framework for gas liberalization that applies especially to LNG countries The author finds perhaps surprisingly that both LNG countries and PNG countries can in fact learn from each other This book will be a key reference for anyone interested in the legal issues of gas liberalization and will also provide the international energy community with keen insight into the unbundling and open access regimes in the United States Europe Japan South Korea and Taiwan Policymakers around the world will discover an excellent framework for launching or improving a gas liberalization scheme Annual Report National Institute of Economic and Social Research,2003 **Corporate Social Responsibility in the Global Business World** Asli Yüksel

Mermoud, Samuel O. Idowu, 2013-08-29 This book provides an overview of the application of Corporate Social Responsibility in businesses and corporations around the world Primarily based on real cases it focuses on different approaches to CSR from a global perspective It provides a critique of the wrong practices often employed even by multinational organizations and highlights the resultant negative effects On the other hand the book demonstrates good examples that can help multinationals or even entire countries to achieve both a better reputation and increased profitability CSR in the Global Business World is a rich resource of illustrative cases serving both as a basis for ongoing research as well as for teaching purposes at the business school level *The Routledge Companion to Accounting Communication* Lisa Jack, Jane
