*Schools and Kindertartens* Mark Dudek, 2007-03-02 As a new generation of educational environments are designed and built this design manual helps architects to grasp the underlying educational theories and how they can be realized in built form so that the building fulfills its role as a 3 dimensional curriculum plan It presents over 80 international case studies Child Care Design Guide Anita Rui Olds, 2001 A Z s for designing superior day care facilities Virtually unknown 30 years ago daycare has become a growth industry Child Care Design Guide helps architects and designers plan design and renovate functional developmentally rich pleasing centers

Author Anita Rui Olds brings to this work over 25 years of design experience with children's facilities. She gives you step by step explanations of interior and exterior layout and design principles fleshed out in clarifying case studies. You learn about licensing and code requirements, operational standards and strategies and get helpful checklists, charts and graphs for optimum facility design within time, space and budgetary constraints. This highly visual work features over 300 floor plans for infant and toddler, preschool and afterschool spaces plus areas for outdoor play and more. **Teaching in the**

**Standards-based Classroom**, 2001. Virtually every national standards document, every state framework and every local set of standards calls for fundamental changes in what and how teachers teach. The challenge for teachers is to implement the vision for mathematics and science classrooms called for in the standards. This issue describes that vision and suggests ways to use the standards mandated in your school to improve your practice to help you teach in your standards-based classroom.
