African American Psychology Stacie DeFreitas, 2019-11-06 This innovative text is the first to examine the contemporary psychological experience of African Americans through the lens of a positive strengths based model. It combats the deficit perspective that has permeated the psychological literature about African Americans by focusing on the strengths that have facilitated their growth and resilience while also considering existing challenges and struggles. The author examines in depth the major areas of psychological research across family, peer and romantic relationships, education, work, ethnic/racial socialization and identity, prosocial behavior and civic engagement, and the mental and physical health of African Americans today. With a focus on real life applications, the text includes pedagogical elements introducing topics in Current Events, Interventions in Practice, Individual Issues, African Cultural Values and Media and Technology. Additional features include learning objectives in each chapter, discussion questions, a closing summary, an extensive trove of additional resources and PowerPoints, and a sample syllabus for instructors. Print version of book includes free searchable digital access to the entire contents. Key Features: Serves as the first text to examine African American psychology from a strengths based perspective. Grounded in a lifespan perspective. Focuses on ethnic/racial socialization and ethnic/racial identity. Addresses mental and physical health. Demonstrates how communities have used strength based techniques to achieve positive outcomes. Integrates values common to Western Africa. Cochran, 2020-08-11 Now in its third edition, *The Heart of Counseling* is a key resource helping students to understand the importance of therapeutic relationships and to develop the qualities that make the therapeutic relationships they build with clients the foundation of healing. In these pages, students will learn how all skills arise from and are directly related to the counselor's development and how they build therapeutic relationships. Student learning ranges from therapeutic listening and empathy to structuring sessions, from explaining counseling to clients and caregivers to providing wrap-around services and ultimately to experiencing therapeutic relationships as the foundation of professional and personal growth. Enhancing development with extensive online student and instructor materials, this new edition includes extensive case studies and discussions on applying skills in school and agency settings, specific guidance on how to translate the abstract concepts of therapeutic relationships into concrete skill sets, exploration of counseling theories and tasks within and extending from core counseling skills, session videos that bring each chapter to life, test banks, an instructor's guide, slides, and lesson notes, syllabus, and video sessions index.
