critically examines the ideological influence of independence movements on the African continent's management and remembering of heritage and considers whether there are any differences in heritage management between countries that experienced armed conflicts and those that did not. The volume will be the first to critically assess the state of heritage management now at a time when vital conversations about the balance between heritage and development is ongoing and the actions of new players have begun to impact the management and practice of heritage in the region. Cultural Heritage Management in Africa will be essential reading for those engaged in the study of museums and heritage development, archaeology, anthropology, history, and African studies. It will also be of interest to heritage and museum professionals who wish to learn more about the decolonisation of heritage.

Rethinking Humanitarian Intervention in the 21st Century

Aiden Warren, 2017-06-02. Since the end of the Cold War, humanitarian interventions have continued to evolve and respond to a wide range of political crises. These insightful essays focus on the challenges associated with interventions when facing conflict and human rights violations, unmitigated systematic violence, state rebuilding, human mobility, and dislocation. Each chapter is linked to the rest through three defining themes that permeate the book: the evolution of humanitarian interventions in a global era, the limits of sovereignty, and the ethics of interventions, and the politics of post-intervention rebuilding and humanitarian engagement. The authors incorporate a variety of case studies, including Kosovo, Timor-Leste, Syria, Libya, and Iraq, and examine the complexity of interventions across their different dimensions, including relevant doctrines such as R2P, Use of Force, and Human Security.

Communication and Sport

Michael L. Butterworth, 2021-07-19. Sport is a universal feature of global popular culture. It shapes our identities, affects our relationships, and defines our communities. It also influences our consumption habits, represents our cultures, and dramatizes our politics. In other words, sport is among the most prominent vehicles for communication available in daily life. Nevertheless, only recently has it begun to receive robust attention in the discipline of communication studies. The handbook of Communication and Sport attends to the recent and rapid growth of scholarship in communication and media studies that features sport as a central site of inquiry. The book attempts to capture a full range of methods, theories, and topics that have come to define the subfield of communication and sport or sports communication. It does so by emphasizing four primary features. First, it foregrounds communication as central to the study of sport. This emphasis helps to distinguish the book from collections in related disciplines such as sociology and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport. Thus, in addition to studies of media effects, mediatization, media framing, and more, readers will also engage with studies in interpersonal, intercultural, organizational, and rhetorical communication. Second, the handbook presents an array of methods, theories, and topics in the effort to chart a comprehensive landscape of communication and sport scholarship. Thus, readers will benefit from empirical, interpretive, and critical work, and they will also see studies drawing on varied texts and sites of inquiry. Third, the handbook of Communication and Sport includes a broad range of scholars from around the world. It

is therefore neither European nor North American in its primary focus In addition the book includes contributors from commonly under represented regions in Asia Africa and South America Fourth the handbook aims to account for both historical trajectories and contemporary areas of interest In this way it covers the central topics debates and perspectives from the past and also suggests continued and emerging pathways for the future Collectively the handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available *Routledge Handbook of Feminist Peace Research* Tarja Väyrynen, Swati Parashar, Élise Féron, Catia Cecilia Confortini, 2021-03-11 This handbook provides a comprehensive overview of feminist approaches to questions of violence justice and peace The volume argues that critical feminist thinking is necessary to analyse core peace and conflict issues and is fundamental to thinking about solutions to global problems and promoting peaceful conflict transformation Contributions to the volume consider questions at the intersection of feminism gender peace justice and violence through interdisciplinary perspectives The handbook engages with multiple feminisms diverse policy concerns and works with diverse theoretical and methodological contributions The volume covers the gendered nature of five major themes Methodologies and genealogies including theories concepts histories methodologies Politics power and violence including the ways in which violence is created maintained and reproduced and the gendered dynamics of its instantiations Institutional and societal interventions to promote peace including those by national regional and international organisations and civil society or informal groups bodies Bodies sexualities and health including sexual health biopolitics sexual orientation Global inequalities including climate change aid global political economy This handbook will be of great interest to students of peace and conflict studies security studies feminist studies gender studies international relations and politics Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Sessional Papers* Great Britain.
