The authors explore the changing dynamics of voting patterns, religious politics, politicians' behaviour and the broader political system to offer new insights into presidential systems in Africa and beyond. **Development Perspectives from the South** Mawere, Munyaradzi, 2016-12-14 Not so long ago The Economist described Africa as a hopeless continent. This damning description specifically referred to the development status of Africa. While the debate on the political and socio-economic underdevelopment of Africa had been raging on prior to the Economist's daring but controversial pronouncements, it intensified from thereon. Many concerned people from within the continent and elsewhere have reproved the proclamation but mainly in newspapers and the broadcast media. Not enough has been done by development scholars to critically reflect on the description and status of Africa's development condition in a nuanced and systematic fashion. Yet it is through incisive reflections and systematic engagements with Africa's situations and circumstances that directions and solutions to the African development predicament could be forged. The present volume is an attempt to open up a constructive dialogue between the Global North and the Global South on the African underdevelopment conundrum. The book is an eye opener to African governments, social scientists, policy makers and development scholars concerned with the urgent need to rethink, reimagine and retheorise Africa's development gridlock.

*The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa* Ernest Jakaza, Hugh Mangeya, Isaac Mhute, 2024-06-17 This handbook provides a detailed and sustained examination of the scope, purpose and practical application of crisis and disaster management communication in this critical region of the African continent, sub-Saharan Africa (SSA). The volume lays the foundation that enables a nuanced appreciation of two significant issues. The first pertains to SSA's vulnerability to both natural and man-made phenomena. Secondly, it argues that communication plays a critical role in so far as the identification, social construction, raising awareness, preparation, mitigation and eradication of crises and disasters in the region. Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence. This handbook is a key resource for academics, students and practitioners in areas such as political communication, media communication, language and communication, brand communication, social digital media communication and crisis communication among others.
