Mineral Resource Governance and Human Development in Ghana Felix Danso,2020-04-28 This book investigates how mineral resources can be governed to promote people centred development in Ghana focusing on the three main human development variables living standards education and health Ghana is endowed with abundant mineral resources The mineral sector accounts for about 14% of total tax revenue driven mostly by an increase in export earnings from the gold sector and the commencement of crude oil exports However the country has not yet been able to use its natural resources to promote human development and the majority of the population still lives on less than 2 a day This book argues for a paradigm shift in the discussion of mineral resources one that looks to govern natural resources in such a way as to improve standards of living health education income levels empowerment quality of work and threats from violence The human centred mineral resource governance approach developed by this book will not only be useful to Ghana but can also be applied to other mineral rich countries in sub Saharan Africa This book will be important to upper level students and researchers of natural resource management international development and African studies as well as to NGOs practitioners and policymakers who recognise the importance of linking natural resources income to human development **An**

Aka,2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari s departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari s departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark

of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria s former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria s external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country s resources more wisely
