Spangenberg, 2006 Voices of pedagogical development – Expanding, enhancing and exploring higher education language learning Juha Jalkanen, Elina Jokinen, Peppi Taalas, 2015-09-15 Voices of Pedagogical Development is a collection of articles written by teacher researchers at the University of Jyväskylä Language Centre. It shares the fruits of their ideas and development work in the areas of academic literacies, new forms of teaching and learning and internationalisation. Part one aims at establishing and expanding perspectives on the multilayered and multivoiced reality of pedagogical development in higher education. Part two looks at how practices can be enhanced by engaging teachers, students and other cooperating partners in reflection and development. Part three focuses on exploring perceptions of language, language learning and literature. As a whole, the collection represents a spectrum of approaches and shows the various stages of pedagogical thinking and perception. It provides insights into pedagogical development in higher education language teaching through an examination of policies, perceptions and practices. **Juoksuhaudantie** Kari Hotakainen, 2010-06-01 Palkittu romaani kivusta talosta ja taipumattomuudesta kotirintamamies Matti Virtasen kujanjuoksu suomalaisen unelman perässä kalliiksi Finlandia palkinto 2002 Pohjoismaiden neuvoston kirjallisuuspalkinto 2004

In recent years, linguistic studies of formulaicity have been flourishing and the very notion of formulaicity has been approached from various methodological and theoretical perspectives and with various purposes in mind. The linguistic approach to formulaicity is still in a state of rapid development and the objective of the current volume is to present the current explorations in the field. Papers collected in the volume make numerous suggestions for further development of the field and they are arranged into three complementary parts. The first part with three chapters presents new theoretical and methodological insights as well as their practical application in the development of custom-designed software tools for identification and exploration of formulaic language in texts. Two papers in the second part explore formulaic language in the context of language learning. Finally, the third part with three chapters showcases descriptive research on formulaic language conducted primarily from the perspectives of corpus linguistics and translation studies. The volume will be of interest to anyone involved in the study of formulaic language either from a theoretical or a
