Are There People Without a Self? Ermuth Johannes Grosse, 2021-10-28 That in our times a kind of supernumerary person is appearing who is egoless who in reality is not a human being is a terrible truth Rudolf Steiner Are there people on earth today who do not have a self a human ego or I The phenomenon of egolessness the absence of a human being's core was discussed by the spiritual teacher Rudolf Steiner in lectures and personal conversations An egoless individual he intimated is an empty sheath through which other spiritual entities could operate Erdmuth J Grosse brings together many little known quotations from Rudolf Steiner's spiritual research and supports them with a wealth of disquieting reports testimonies and examples from literature and politics He places these insights within the broader context of the riddle of the human self throwing light on the spiritual development of the individual and humanity as a whole In this thought provoking study Grosse goes on to discuss the role of comets the effects of cyanide on the human constitution especially in the light of the Holocaust and the hidden effects of ceremonial magic occult lodges cults and sects In conclusion he offers positive solutions to humanity's present predicament by describing the healing impulses of social threefolding the invisible spiritual beings seeking to help humanity the role of the gods the Christ impulse and the true goals of human evolution Fruits of Anthroposophy George Kaufmann, 1922 **Aghātiyā Karmas** Kristi Lynn Wiley, 2000 *The Labdhisāra of Nemicandra Siddhānta Cakravartī* Laxmi Chandra Jain, 1994 Study of Labdhisāra of Nemicandra Siddhāntacakravartin work on Jain doctrine of karma and ancient mathematics and science The National Union Catalog, Pre-1956 Imprints Library of Congress, American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee, 1969 A Buddha Land in This World Lajos Brons, 2022 In the early twentieth century Uchiyama Gud Seno and Gir Lin Qiuwu and others advocated a Buddhism that was radical in two respects Firstly they adopted a more or less naturalist stance with respect to Buddhist doctrine and related matters rejecting karma or other supernatural beliefs And secondly they held political and economic views that were radically anti hegemonic anti capitalist and revolutionary Taking the idea of such a radical Buddhism seriously A Buddha Land in This World Philosophy Utopia and Radical Buddhism asks whether it is possible to develop a philosophy that is simultaneously naturalist anti capitalist Buddhist and consistent Rather than a study of radical Buddhism then this book is an attempt to radicalize it The foundations of this radicalized radical Buddhism are provided by a realist interpretation of Yogic ra elucidated and elaborated with some help from thinkers in the broader Tiantai Tendai tradition and American philosophers Donald Davidson and W V O Quine A key implication of this foundation is that only this world and only this life are real from which it follows that if Buddhism aims to alleviate suffering it has to do so in this world and in this life Twentieth century radical Buddhists as well as some engaged Buddhists came to a similar conclusion often expressed in their aim to realize a Buddha land in this world Building on this foundation but also on Mahāyāna moral philosophy this book argues for an ethics and social philosophy based on a definition of evil as that what is or

should be expected to cause death or suffering On that ground capitalism should be rejected indeed but utopianism must be treated with caution as well which raises questions about what it means from a radicalized radical Buddhist perspective to aim for a Buddha land in this world Lajos Brons is a Dutch philosopher and social scientist living in Japan After receiving a PhD from the University of Groningen in the Netherlands for a dissertation on an aspect of the history and philosophy of the social sciences he gradually moved further and further into philosophical territory Currently Lajos is teaching logic ethics and philosophy at a university in Tokyo His research interests are divided over two broad areas in philosophy one is in the overlap of meta ethics and social political philosophy the other is in the intersection of philosophy of language metaphysics and epistemology Research in the former focuses on the relations between death suffering and compassion Research in the latter concerns the relations between language thought and reality and is heavily influenced by the philosophies of Donald Davidson and W V O Quine and by Buddhist philosophy More information about publications and research interests as well as Lajos s blog can be found at www.lajosbrons.net The Bihar & Orissa Gazette ,1922 **Yoga in Modern Hinduism** Knut A.
