**My Wave**, Throughout the past five decades surfers have been falsely given a bad reputation that stems mainly from fictional movies They are portrayed as lazy weed smoking hippy free loaders with no ambition in life other than surfing That is not reality Books with a surfing theme all have one thing in common they are documents about courage pushing the limits near death experiences overcoming all obstacles friendship and love What outsiders do not realize is surfers have a unique and spiritual connection with the Earth and Mother Nature Once it s in the blood it grabs hold of the soul and never let s go of it It changes a person and in most cases in a positive fashion Before Steven K Craig was an author a world famous artist a champion Jet Ski racer or known for being a co creator of the iconic metal band Slayer he was a Surfer and it was his love for surfing that paved the way for his future Steven dreamed of surfing years before he held a surfboard in his hands At a very young age the ocean reached in and took hold of his soul He became the stereotypical Southern California surfer before it was stereotypical To him it wasn t a lifestyle it was a magical way of life His story is a testament to why people should live life with passion to its fullest and never give up on dreams Only once in every generation a surfer who is at the right place at the right time gets to experience what is referred to as Big Wednesday It s the day they hope for and dream about This is the day a surfer s physical and mental abilities are put to the test and pushed beyond the limits On that day death is close at hand and for those that emerge victorious they go on to conquer the world There is no more fear only living for each and every moment afterwards You do not need to be a surfer to enjoy this magical story A marvelous tale for the young people of today about how a boy that was different didn t follow trends or succumb to peer pressure conquered the world People from all walks of life can learn what it is to truly be alive from the tale of a Surfer even if they never grab a board and get in the water to take on the brutal monsters of the ocean which only a true surfer has the courage to call My Wave

**Motorized Obsessions** Paul R. Josephson, 2007-09-02 From dirt bikes and jet skis to weed wackers and snowblowers machines powered by small gas engines have become a permanent and loud fixture in American culture But fifty years of high speed fun and pristine lawns have not come without cost technology it powers Paul R

Josephson explores the political environmental and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it: personal watercraft (PWCs) on inland lakes and rivers, all-terrain vehicles (ATVs) in deserts and forests, lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Research, nongovernmental organizations, and manufacturers' Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.
