**U.S. Army First Aid Manual for Soldiers** United States. Department of the Army, 2004 The official U S Army guide to first aid **U. S. Military First Aid Manual** Department of Defense, 2002-12-23 This manual meets the first aid training needs of individual service members Because medical personnel will not always be readily available the nonmedical service members must rely heavily on their own skills and knowledge of life sustaining methods to survive on the integrated battlefield This publication outlines both self aid and aid to other service members buddy aid More importantly it emphasizes prompt and effective action in sustaining life and preventing or minimizing further suffering and disability First aid is the emergency care given to the sick injured or wounded before being treated by medical personnel The term first aid can be defined as urgent and immediate lifesaving and other measures which can be performed for casualties by nonmedical personnel when medical personnel are not immediately available Nonmedical service members have received basic first aid training and should remain skilled in the correct procedures for giving first aid This manual is directed to all service members The procedures discussed apply to all types of casualties and the measures described are for use by both male and female service members This publication is in consonance with the following North Atlantic Treaty Organization NATO International Standardization Agreements STANAGs and American British Canadian and Australian Quadripartite Standardization Agreements QSTAGs Medical Training in First Aid Basic Hygiene and Emergency Care First Aid Kits and Emergency Medical Care Kits Medical First Aid and Hygiene Training in NBC Operations First Aid Material for Chemical Injuries When a nonmedical service member comes upon an unconscious or injured service member he must accurately evaluate the casualty to determine the first aid measures needed to prevent further injury or death He should seek medical assistance as soon as possible but he should not interrupt the performance of first aid measures To interrupt the first aid measures may cause more harm than good to the casualty Remember that in a chemical environment the service member should not evaluate the casualty until the casualty has been masked After performing first aid the service member must proceed with the evaluation and continue to monitor the casualty for development of conditions which may require the performance of necessary basic lifesaving measures such as clearing the airway rescue breathing preventing shock and controlling bleeding He should continue to monitor the casualty until relieved by medical personnel Service members may have to depend upon their first aid knowledge and skills to save themselves self aid or other service members buddy aid combat lifesaver They may be able to save a life prevent permanent disability or reduce long periods of hospitalization by knowing WHAT to do WHAT NOT to do and WHEN to seek medical assistance NOTE The prevalence of various body armor systems currently fielded to US service members and those in development for future fielding may present a temporary obstacle to effective evaluation of an injured service member You may have to carefully remove the body armor from the

injured service member to complete the evaluation or administer first aid Begin by removing the outer most hard or soft body armor components open unfasten or cut the closures fasteners or straps then remove any successive layers in the same manner Be sure to follow other notes cautions and warnings regarding procedures in contaminated situations and when a broken back or neck is suspected Continue to evaluate U.S. Army First Aid Manual FM 4-25.11 Department Of The Army,2020-09-18 U S Army First Aid Manual by the Department of the Army is the official guide to treating every type of injury or medical emergency in the field Developed over decades of experience in wars and conflicts all over the world and in every imaginable environmental condition the U S Army First Aid Manual details how to treat wounds fractures insect bites and stings damage to organs head injuries and many more afflictions in an easy to read and understandable format With an emphasis on keeping the injured alive so that they may be transported to a medical facility the guide explains how a person can treat both injuries to oneself and to others so that further damage and physical suffering can be minimized Practically arranged and concisely written the manual is an invaluable reference in any emergency where immediate medical care cannot be found U S Army First Aid Manual is an essential resource for doctors nurses military personnel parents childcare providers doomsday preppers outdoor enthusiasts hikers campers and anyone who would like to better know how to save a life in an emergency situation This edition is printed on premium acid free paper **The Official US Army First Aid Guide - Updated Edition - TC 4-02. 1 (FM 4-25. 11 / U. INTRODUCTION Dogs have served in active service at the sides of their handlers for decades They have been heroes showing bravery under fire saving lives often losing their own and bringing comfort to the injured and infirmed The first recorded American use of military dogs was during the Seminole War of 1835 and again in 1842 In Florida and Louisiana the Army used Cuban bred bloodhounds for tracking During the US Civil War dogs were used as messengers guards and unit mascots The Army Quartermaster Corps began the US Armed Forces first war dog training during World War II By 1945 they had trained almost 10 000 war dogs for the Army Navy Marine Corps and Coast Guard Fifteen war dog platoons served overseas in World War II Seven platoons saw service in Europe and eight in the Pacific MWDs were trained at Fort Carson Colorado organized into scout dog platoons and used in the Korean conflict for sentry duty and support of combat patrols In 1957 MWD training moved to Lackland Air Force base LAFB Texas with the Air Force managing the program Throughout the Vietnam Conflict the Military Police Corps used dogs with considerable success Most of these were sentry dogs used to

safeguard critical installations such as ports and airfields A new dimension in canine utilization was realized when marijuana detector dog teams were trained and deployed to assist military police in suppressing illicit drug traffic Sentry and marijuana detector dog teams were then deployed worldwide in support of military police An important outgrowth of the conflict was the development of canine research and development efforts These ongoing efforts were able to initiate the first steps toward developing a more intelligent and stronger military dog training dogs to detect specific drugs and explosives developing multiple purpose dogs and employing tactical dogs by electronic remote control In the 1990s and early 2000s MWDs were deployed around the globe in military operations such as Just Cause Desert Shield and Desert Storm Uphold Democracy and Enduring Freedom and Iraqi Freedom These teams were effectively utilized to enhance the security of critical facilities and areas as well as bolster force protection and antiterrorism missions allowing commanders to use military police
