permeates performances and perceptions The notion of Europe appears as a set of quality standards as well as guidelines for experiences against which civilisations are measured This set of standards and guidelines however is far from stable It is a floating foundation carrying different versions of Europe throughout time The authors tackle the problem from different angles travels from Europe across the seven oceans transported the idea of European civilisation just as travels to Europe or within Europe The volume explores the different meanings attached to the term Europe and civilisation throughout history and shows how different political or cultural contexts affect the notion of what Europe is or should be *Goethe's*

in continental philosophy The book visits different levels and linkages between aesthetic theory and geography art and sociology architecture and political theory and geometry and history shedding new light on theatre politics and space thereby transforming this historically intertwined triad into a transdisciplinary theme     *Goethe's poems, selected and ed. by H.G.*
