Reverse Acronyms, Initialisms, & Abbreviations Dictionary ,2007 Dictionary of Abbreviations in Medical
Sciences Rolf Heister,2012-12-06 Not everyone is a friend of the manifold abbreviations that have by now beCome a part of
the scientific language of medicine In order to avoid misunderstanding these abbreviations it is wise to refer to a reliable dic
tionary such as this one prepared by Heister The abbreviation ED means for instance effective dose to the pharmacologist
However it might also stand for emetic dose Radiologists use the same abbreviation for erythema dose and ED could also
mean ethyl dichlorarsine A com mon meaning of ECU is European currency unit a meaning that might not be very often in
scientific medical publications ECU however also means environmental control unit or European Chiropractic Union
Hopefully those making inventions and discoveries will make use of Heister s dictionary before creating new abbreviations
when preparing manuscripts for scientific publications It is a very worthwhile goal not to use the same abbreviation for
several different terms especially if it is already widely accepted to mean only one of them It may be impossible however to
achieve this goal in different scientific disciplines Therefore although it is wise for the abbreviations used in a publication to
be defined it is also very helpful for readers and writers to use a dictionary such as this one The author deserves our warmest
