FOR scholars and business men by a scholar and a business man Manly and Powell s Manual should be of great service It gives concisely but clearly helpful suggestions on the expression of thought and authoritative information upon practices in printing Of its twelve chapters the first seven are given up to writing the last five to the questions which arise in connection with the publication of articles and books The first chapter twenty five pages specifically on English Composition is the most sensible rhetoric in miniature that I have ever seen The notes that follow on grammar diction punctuation capitalization and italicization are exactly what every man at all doubtful of his knowledge in these matters needs to have at hand The chapter on Letter Writing answers every practical question that could be asked about the subject it is too dogmatic for my taste especially in regard to personal letters but that is a detail As for the second half of the book including the index its accuracy and definiteness are hardly short of marvelous There are two books here rather than one and I do not believe that the scholar has much need of the first half or the business man of the second but the whole volume is so convenient and so inexpensive that all sorts and conditions of men are certain to thank heaven for it The English Journal IN these days when as the publishers of books and the producers of plays assure us every intelligent and fairly educated person as well as some who have not these qualifications has the manuscript of the great novel or epoch making play either in

preparation or else shuttling through the mails a volume of information in regard to the technique of writing ought to meet with widespread interest Especially ought this to be true in the case of Manly and Powell s Manual for Writers for this is a book compiled by men who are qualified to speak with authority the one on questions of propriety and usage the other on the practice of publishers It is free from the dogmatism and petty pedantry which so generally characterize the style books of newspapers magazines and publishing houses Upon points where usage is divided the authors as they have carefully pointed out in the Preface have for the sake of uniformity and practical efficiency presented only a single form Its great merit lies in the fact that it is authoritative With a few minor exceptions which are practically negligible its rules and precepts are unquestionable The School Review *A Manual for Writers* John Matthews Manly,2015-07-21 Excerpt from A Manual for Writers Covering the Needs of Authors for Information on Rules of Writing and Practices in Printing A Manual for Writers Covering the Needs of Authors for Information on Rules of Writing and Practices in Printing was written by John Matthews Manly and John Arthur Powell in 1920 This is a 232 page book containing 58561 words Search Inside is enabled for this title About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *A Manual for Writers, of Term Papers, Theses, and Dissertations* Kate L.
