## Manual Guide Thule:

God: A User's Guide Sean Moncrieff, 2016-05-10 Jesus spent decades in India Ethiopians not Jews are the real chosen people A religion in Iran predicted the Virgin Birth hundreds of years before Christ Abraham was an Iraqi Lenin was a Saint Worms have souls There s no such thing as the Holy Trinity All religions are the same These are not conspiracy theories but the genuine beliefs of the some of the world s major religions In God A Users Guide broadcaster Sean Moncrieff takes us through the history and development of the twenty largest religions in the world in the process demonstrating that the truth is far more compelling than the fictional accounts In the name of religion millions have been killed and millions have been saved Political dynasties have been built on the back of religious belief or been destroyed because of them The history of religion is one of tyranny betrayal sacrifice generosity and faith where the same facts have often brought believers to dramatically different conclusions From religions which have a multiplicity of Gods to religions which have no God at all God A Users Guide demonstrates how the vast majority of the world s religions did not develop in isolation but were influenced by already existing belief systems We have far more in common than you might think **The American Booksellers Guide**
