**Routledge Handbook of New Media in Asia** Larissa Hjorth, Olivia Khoo, 2015-11-06 While a decade ago much of the discussion of new media in Asia was couched in Occidental notions of Asia as a default setting for technology in the future today we are seeing a much more complex picture of contesting new media practices and production As new media becomes increasingly an everyday reality for young and old across Asia through smartphones and associated devices boundaries between art new media and the everyday are transformed This Handbook addresses the historical social cultural political philosophical artistic and economic dimensions of the region s new media Through an interdisciplinary revision of both new media and Asia the contributors provide new insights into the complex and contesting terrains of both notions The Routledge Handbook of New Media in Asia will be the definitive publication for readers interested in comprehending all the various aspects of new media in Asia It provides an authoritative up to date intellectually broad conceptually cutting edge guide to the important aspects of new media in the region as the first point of consultation for researchers advanced level undergraduate and postgraduate students in fields of new media and Asian studies *Social Media in Asia* Azman Azwan Azmawati, Rachel E. Khan, 2016-09-23 As part of the advocacy of the Asian Congress for Media and Communication ACMC to promote regional studies in global academic discourse this book contributes to a better understanding of social media within the context of Southeast Asian countries with the addition of Sri Lanka The contributors here are primarily Asian academics and practitioners immersed in the fields of media and communication Throughout the chapters the reader will discover that social media has changed the paradigm of communication in the region as an avenue for free expression as a tool for news gathering and news distribution as an aid in crime prevention and even as a means to find a lifelong partner For non Asian readers there is also an annex that provides a summary of social media statistics in the region to allow the countries mentioned in this book to be situated within the global context *The Asia-Pacific in the Age of Transnational Mobility* Catherine Gomes, 2016-12-01 The growing mobility of people within and into the Asia Pacific region has created environments of increasing diversity as nations become hosts to both permanent and temporary multicultural societies How do we begin to gauge the impact of mobility and multiculturalism on individuals and groups in this diverse region today The authors of *The Asia-Pacific in the Age of Transnational Mobility* turn to social media as a tool of inquiry to map how mobile subjects and minorities articulate their sense of community and identity The authors see social media as a platform that allows users to document and express their individual and collective identities sometimes in restrictive communication environments while providing a sense of belonging and agency They present original empirical work that attempts to help readers understand how mobile subjects who circulate in the Asia Pacific create a sense of community for themselves and articulate their ethnic ideological and national identities *The Role of Media in Suicide and Self-harm: Cross-disciplinary Perspectives* Qijin Cheng, Yukari Seko, Thomas Niederkrotenthaler, 2022-10-26 **Youths Media and Politics** Aida
