**Music in Range** Brian Fauteux, 2015-11-02

Music in Range explores the history of Canadian campus radio, highlighting the factors that have shaped its close relationship with local music and culture. The book traces how campus radio practitioners have expanded stations from campus borders to surrounding musical and cultural communities by acquiring FM licenses and establishing community-based mandates. The culture of a campus station extends beyond its studio and into the wider community where it is connected to the local music scene within its broadcast range. The book examines campus stations and local music in Vancouver, Winnipeg, and Sackville, NB, and highlights the ways that campus stations, through music-based programming, their operational practices, and the culture under which they operate, produce alternative methods and values for circulating local and independent Canadian artists at a time when ubiquitous commercial media outlets do exactly the opposite. Music in Range sheds light on a radio sector that is an integral component of Canada's musical and cultural fabric and positions campus radio as a worthy site of attention at a time when connectivity and sharing between musicians, music fans, and cultural intermediaries are increasingly shaping our experience of music, radio, and sound.

look at our media reveals that though they frequently promote superficial representations of difference they actually play a pivotal role in producing and reproducing the values structures and priorities of a predominantly straight white male society The Media Gaze exposes how newscasters advertisers filmmakers and television programmers attempt to co opt audiences into believing that media depictions entail neither prejudice nor perspective In truth the experiences of those who fall outside

of the media's preferred populations are actively ignored or misrepresented. In this timely audit of the Canadian mainstream media, sociologist Augie Fleras draws on compelling case studies to explore the societal implications of the industry's hidden bias. He also examines alternative forms of media and media literacy to present readers with tools to challenge the dominant agenda.

**Canadian Books in Print**, 2003      **From Hobbits to Hollywood** Ernest Mathijs, Murray Pomerance, 2006. Peter Jackson's film version of *The Lord of the Rings* (2001-2003) is the grandest achievement of 21st-century cinema so far. But it is also linked to topical and social concerns including war, terrorism, and cultural imperialism. Its style, symbols, narrative, and structure seem always already linked to politics, cultural definition, problems of cinematic style, and the elemental mythologies that most profoundly capture our imaginations. *From Hobbits to Hollywood: Essays on Peter Jackson's Lord of the Rings* treats Jackson's trilogy as having two conditions of existence: an aesthetic and a political. Like other cultural artefacts, it leads a double life as object d'art and public statement about the world so that nothing in it is ever just cinematically beautiful or tasteful, and nothing is ever just a message or an opinion. Written by leading scholars in the study of cinema and culture, *From Hobbits to Hollywood* gives Jackson's trilogy the fullest scholarly interrogation to date. Ranging from interpretations of *The Lord of the Rings'* ideological and philosophical implications through discussions of its changing fandoms and its incorporation into the Hollywood industry of stars, technology, genre, and merchandising to considerations of CGI effects, acting, architecture, and style, the essays contained here open a new vista of criticism and light for ardent fans of J.R.R. Tolkien, followers of Jackson, and all those who yearn for a deeper appreciation of cinema and its relation to culture.
