 trained both as a designer and a botanist deriving his design vocabulary initially from observations of nature As the first
 European designer to visit Japan in an official capacity he made comprehensive study of Japanese art during his four month
 visit The experience confirmed his belief in the supremacy of form over ornament and resulted in designs that were truly
 radical in relation to contemporary Victorian taste Dresser was also a pioneer in his vision of industry as a means to spread
 the tenets of good design working with over fifty manufacturers in a wide variety of media to produce an astonishing range of
 reasonably priced widely available consumer goods Seven essays from leading specialists in the field explore the impact of
 Christopher Dresser's theories and work in the context of his contemporaries such as Pugin Owen Jones and Godwin His
 achievement is seen in relation to the late industrial revolution and the development of modern design The 300 illustrations
 illuminate the vast scope of his output from Gothic Revival cast iron Coalbrookdale hall stands and the stark geometric forms
 of James Dixon Sons silver plate to the experimental and highly innovative shapes and glazes of Linthorpe ceramics The
 catalogue also features previously unattributed designs for textiles wallpaper and glass and expands the sum of Dresser
 scholarship into new and illuminating areas BOOK JACKET **Christopher Dresser** Victoria and Albert Museum, 2004
