R. Harshbarger, 1935      **A Shorter Course in Woodworking** Charles G. Wheeler, 2017-12-26 Excerpt from A Shorter Course in Woodworking A Practical Manual for Home and School Teachers parents business men and mechanics are demanding that the training of youth be more practical A satisfactory system must meet the demands of the pupil or the individual student that his interest and enthusiasm maybe so aroused as to call forth his best efforts of the educator that the subject may be presented to the pupil in the way best for his general development of the mechanic that the most practical methods may be adopted and of the business man that the pupils be trained in up to date methods and modern ways of thinking This book is not meant to conflict with courses in woodworking now in use but rather to fit in with any system for the approved methods of work the result of the experience of Generations of workmen should be known to all teachers pupils and individual students No set course of procedure can be adopted by all nor is there any necessarily logical order in which many of the tools and Operations must be taken up although some are naturally brought into use before others Therefore the material in this book is so arranged that it can be used in any order and any desired

topic can be referred to readily When class exercises are begun with oral and manual demonstrations many pupils do not readily grasp and assimilate the new ideas technical terms and details during one demonstration by the teacher and it is believed that a general manual which can be used as a text book and reference book will be helpful and time saving to both teacher and pupil About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The Woodworker's Manual** Gosta Vass, 1988-08-18 **Manual Training for Common Schools** Eldreth G. Allen, 2015-07-09 Excerpt from Manual Training for Common Schools An Organized Course in Wood Working In preparing this book on Manual Training the author has attempted to be thorough rather than complete No attempt has been made to add anything new to the subject matter but only to arrange well known facts so that they will offer as systematic and complete a course of study as is offered in any of the older organized courses The arrangement of the text as herein presented is the direct result of five years teaching the subject of wood working to beginning classes This class work was preceded by a number of years of shop work as a journeyman machinist and a factory foreman as well as by a four years college course in science and engineering Help in preparing the text has been gleaned from so many fields that it would be impossible to make direct mention of all who have given valuable assistance The author wishes however to acknowledge the aid given by Mr Charles E Emmerich principal of the Indianapolis Manual Training High School and Mr Paul W Covert head of the manual training department who have allowed such freedom in the conduct of classes that it has been possible to make all parts of the work measure up to a class room test Acknowledgment is due Mr Otto Stark head of the art department of the Indianapolis Manual Training High School for his earnest and careful criticism of the models drawings and photographs This criticism has added much to the value of the text The final drawings from which the cuts were executed were made by Mr Edward Stark of Indianapolis About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any
