

# SHIATSU SELF MASSAGE

Shiatsu self-massage is an ancient Japanese healing practice that is highly effective in promoting relaxation, reducing stress, and relieving tension and pain. This technique involves applying gentle but firm pressure to specific points on the body using the fingers, palms, and elbows and working along the meridian lines used in acupuncture. By applying pressure in a rhythmic and circular motion, utilizing the strength and sensitivity of your fingers, you can stimulate the body's natural healing processes and promote a deep sense of calm and relaxation. The coloured dots indicate the approximate positions of specific pressure points. Each colour relates to a particular meridian.
