How often does each starting hand win against a specific hand or random hand What are the odds of your opponent holding a pocket pair when he raises What is the probability that an over card will flop when you hold JJ How do you determine if drawing is profitable or not Texas Hold'em Odds and Probabilities answers all of these questions and more Every single decision you make at the poker table is in some way related to odds and probabilities Whether you are deciding to bet call fold raise or even bluff odds and probabilities are an integral part of the decision making process Texas Hold'em Odds and Probabilities does more than just show you how to calculate the odds more importantly the focus is on how to apply odds to make better decisions Hilger's approach shows that you do not need to be a math wiz to be successful in poker Simple concepts and strategies that anyone can learn will have you matching wits with the top players in no time Some of the topics

include raising draws for value backdoor draws facing all in decisions before the flop protecting your hand the impact of stack sizes and much more In addition the most comprehensive collection of Texas Hold em charts and statistics ever put in print is provided as reference Poker is a fun game but it is even more fun when you win Expert players understand the simple math behind every decision they make now you can too Matthew Hilger is also the author of the best selling Internet poker book Internet Texas Hold em and is coauthor with Ian Taylor of The Poker Mindset The Averoigne Legacy DJ Tyrer, Ron Hilger, H.P.
