Maths Paper Caps Government Grade 2014:

Improving Primary Mathematics Education, Teaching and Learning Mellony Graven, Hamsa Venkat, 2017-01-19

This book focuses on how to improve the teaching and learning of primary level mathematics education within resource constrained contexts. It builds on two large numeracy projects within South Africa which speak to broader global concerns and highlight how research and development not only enables one to meet ethical imperatives but also explore how further interventions can be developed. Teacher and research communities must work together to create mutually beneficial relationships and establish a cohesive understanding of the requirements of primary mathematics education.

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Empowering Students and Maximising Inclusiveness and Equality through ICT, 2021-04-06 Access to and participation in education are critical issues in contemporary South Africa. Awareness of inclusiveness and equality is not recent having possibly first been described in the dawn of the millennium by the United Nations Educational Scientific and Cultural Organization (UNESCO). Drawing from the current framings in the SADC education systems, the contributors argue that ICT has a key role to play in transformation, Africanisation and decolonisation of education. Contributors are Skye Adams, Najma Agherdien, Andrew Crouch, Andries Du Plessis, Nazira Hoosen, Katijah Khoza, Shangase Mhulaheni, Maguvhe Khetsiwe, Masuku Sharon, Moonsamy Munyane, Mophosho Nomfundo, Moroe Ramashego, Shila Mphahlele, Ndileleni Mudzielwana, Shonisani Mulovhedzi, Anniah Mupawose, Mapula Ngoepe, Moshe Phoshoko, Dhanashree Pillay, Roshni Pillay, Ben Sebothoma and Susan Thuketana.

Tracking Changes in South African Reading Literacy Achievement, 2023-09-04 Reading has been touted as the most crucial and lacking skill for young South African children. This book delves into the issues and measurement considerations surrounding reading literacy using the Progress in International Reading Literacy Study (PIRLS) data. The contributors to this volume explore the complexities of measuring reading literacy with an international survey, curricula misalignment and how the PIRLS framework can inform teaching and learning. Contributors are Caroline B. Ning, Celeste Combrinck, Peter Courtney, Martin Gustafsson, Nompumelelo L. Mohohlwane, Nangamso Mtsatse, Elizabeth Pretorius, Karen Roux, Claudia Schreiner, Tobias Schroedler, Nick Taylor, Stephen

Taylor Surette van Staden and Hans Wagemaker *Educational Leadership in Becoming* Nuraan Davids,Yusef Waghid,2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education **The Economics of Education** Steve Bradley,Colin Green,2020-01-17 The Economics of Education A Comprehensive Overview Second Edition offers a comprehensive and current overview of the field of that is broadly accessible economists researchers and students This new edition revises the original 50 authoritative articles and adds Developed US and European and Developing Country perspectives reflecting the differences in institutional structures that help to shape teacher labor markets and the effect of competition on student outcomes Provides international perspectives that describe the origins of key subjects their major issues and proponents their landmark studies and opportunities for future research Increases developing county perspectives and comparisons of cross country institutions Requires no prior knowledge of the economics of education *Leading Change in Teacher Education* Thuwayba Al Barwani,Maria Assunção Flores,David Imig,2018-12-12 The international attempt to expand schooling despite dealing with an insufficient number of trained teachers has placed significant pressure on teacher education Continued effort to change all aspects of teacher education including ways of learning methods of practice institution interaction and assessment of teaching ability in order to fulfil the desire to offer inclusive and equitable teaching for all is a serious consideration In response to this increased attention on cross national campaigns Leading Change in Teacher Education features discussions covering what has been done how and why the change has happened the journey itself and the challenges encountered along the way alongside contributions from international academics who share their reflections and suggestions for a way forward despite a global shortage of teachers Strategies surrounding the design and delivery of education now centre on improving how teachers are

prepared supported and evaluated Leading Change in Teacher Education captures the stories of international change leaders by Providing details of both the successes and challenges faced Presenting innovative practices in teacher education from around the world Describing the strategies put in place to ensure that teacher education is developing The topics discussed are relevant for educators policymakers and international organizations involved in the design and implementation of programmes in teacher education Leading Change in Teacher Education is also an invaluable resource for those looking to increase the changes occurring within teacher education
