*(Re)presentations and Dialogue* François Cooren,Alain Létourneau,2012-11-23 This edited volume proposes key contributions addressing the connections between two important themes dialogue and representation These connections were approached or interpreted in three possible ways 1 Dialogue as representation 2 Normative perspectives on dialogue representation issues and 3 Representations of dialogue The first interpretation Dialogue as representation consists of exploring dialogue as an activity where many things beings or voices can be made present whether we think in terms of ideologies cultures situations collectives roles etc The second interpretation Normative perspectives on dialogue representation issues leads scholars to explore questions of normativity which are often associated with the notion of dialogue when conceived as a morally stronger form of conversation Finally the third interpretation Representations of dialogue invites us to address methodological questions related to the representation of this type of conversation Echoing Bakhtin contributors were invited to explore the polyphonic heteroglot or dialogic character of any text discourse or interaction      Dictionnaire D'archéologie Chrétienne Et de Liturgie, Publié Par Le R. **Nonmodern Practices** Elisabeth Arnould-Bloomfield, Claire Chi-ah Lyu, 2020-10-01 This collection of essays responds to the urgent call in the humanities to go beyond the act of negative critique which so far has been the dominant form of intellectual inquiry in academia The contributors take their inspiration from Bruno Latour s pragmatic relational approach and his philosophy of hybrid world where culture is immanent to nature and knowledge is tied to the things it co creates In such a world nature society and discourse relate to rather than negate each other The 11 essays ranging from early modern humanism and modern theorization of literature to contemporary political ecology and animal studies propose new productive ways of thinking reading and writing with not against the world In carrying out concrete practices that are inclusive rather than exclusive contributors strive to exemplify a form of scholarship that might be better attuned to the concerns of our post humanist era
