Southeastern Europe Eckehard Pistrick,Nicola Scaldaferri,Gretel Schwörer,2011-05-25 The edited volume Audiovisual Media and Identity Issues in Southeastern Europe is an attempt to meet the challenges of text based scholarship to break medial one dimensionality dictated by textuality and to shift the focus to the aural and visual dimensions of identity in a part of Europe heavily marked by the dynamics of political cultural and social change particularly during the last decades The objective of this endeavour is to examine identity in Southeastern Europe by means of its communication media specifically that of the photographic image and the sound recording How are identities communicated How are they performed and made physically perceptible Brought to a point the primary issue is one of how people perceive themselves and their environment on the basis of communication media seen through a lens of different disciplines social anthropology ethnomusicology media studies sociology and history and methodologies from the point of view of scholars from Southeastern Europe and their Western European colleagues The book pursues a distinct comparative and historical perspective examining the media

representations from socialist and pre socialist periods in relation to the role media play in the postsocialist discourse Another focus is laid on local media representations and their impact on local self images This distinct historical and local approach allows new insights into how identities are constructed performed and negotiated in the light of media resulting in different forms of interpreting re appropriating and re evaluating the past and traditions This opens up questions on the role of media in relation to cultural policies and their potential to preserve or to transform local cultural heritage The book is also an important contribution to the field of postsocialist studies in anthropology It sheds a distinct cultural view on postsocialist transformation processes Through a wide range of examples and first hand results of basic field research from Greece Bulgaria Romania Serbia Albania and Slovenia this volume provides an opportunity for a comparative reconsideration of similar phenomena across national borders It may serve also as a methodological reference work for scholars who are interested in the different ways of how to develop and practice media reflexivity in their own field research

L'autorité religieuse et ses limites en terres d'islam, 2013-03-15 Reprenant nouveaux frais la question de l'autorité religieuse ce livre présente différents cas d'étude en Asie centrale travers l'Empire ottoman dans les Balkans et en Turquie. Sont examinés les rapports complexes qu'entretiennent avec le pouvoir politique cheikhs soufis oulmas sheikh ul islam hougoumens ou encore clergé latin l'époque prémoderne. Les XX^e et XXI^e siècles sont analysés du point de vue des transformations de l'autorité religieuse certes fragmentée mais vigoureuse en particulier chez les réformistes musulmans bosniaques et les Bektashis albanais galement parmi les Alvis d'Anatolie ou bien dans le soufisme féminin Istanbul. Il apparaît que l'autorité religieuse dépasse le seul cadre des autorités traditionnelles et se heurte sans cesse des limites théologiques politiques sociales ou institutionnelles. Ont contribué contributeurs include Elisabetta Borromeo Xavier Bougarel Rachida Chih Nathalie Clayer Jérôme Cler Benoît Fliche Anna Neubauer Alexandre Papas Nicolas Vatin Gilles Veinstein. *Reconsidering the question of religious authority* L'autorité religieuse et ses limites en terres d'islam offers various case studies located in Central Asia throughout the Ottoman Empire in the Balkans and in Turkey. The present volume discusses the complex relationships between political power and religious authorities such as Sufi shaykhs ulamas sheikh ul islam hegumens and the latin clergy in the premodern period. The 20th and 21st centuries are analysed from the perspective of the transformation of religious authority certainly fragmented but vigorous among the Bosnian Muslim Reformists the Albanian Bektashis the Alevis of Anatolia and in female Sufism in Istanbul. It appears that religious authority is not limited to traditional authorities and is continuously confronted with limits whether theological political social or institutional.
