Is Everything Just A Coincidence:

Is Everything Just a Coincidence? H Averbukh, 2015 Why was the universe created Is there a Creator What is my connection with Him What is the purpose of my existence in this world Why is there so much injustice Facing personal tragedies diseases natural disasters and the death of young people even children and babies causes a loss of faith It s not surprising that we ask ourselves Where is God This book is an exploration of these fundamental questions In plain and simple language the author tries to open the reader s eyes to all that is about us and to provide a framework for clearly addressing the important issues of human existence Nondenominational in approach addressed to a wide audience Coincidence closes the distance so many adults have put between themselves and God encouraging a wholesome and authentic perspective on life Brightly illustrated with well chosen fascinating images this exploration of the created world and our place in it will be of interest to any thinking person who wants to live a meaningful life Just Love: Questions & Answers, Volume 3

Paramahansa Sri Swami Vishwananda, 2019-11-02 The third and final volume of the JUST LOVE Questions Answers series focuses particularly on that which has been the cause of more debate discussion mystery and curiosity than anything else in the history of mankind God Himself In addition for the first time Paramahansa Vishwananda gives answers to personal questions describing details about His own life and experiences as well as addressing questions about Mahavatar Babaji the role of the Guru religion the meaning and purpose of Divine incarnations and a deeper understanding about the mystical elements of spirituality and how that relates to our daily lives A Divinely Way to Philosophy, Vol. 1 Timo

effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem **Reality Is Just**
