Youth and Skills ,2012-01-01 Many young people around the world especially the disadvantaged are leaving school without the skills they need to thrive in society and find decent jobs As well as thwarting young people s hopes these education failures are jeopardizing equitable economic growth and social cohesion and preventing many countries from reaping the potential benefits of their growing youth populations The 2012 Education for All Global Monitoring Report examines how skills development programmes can be improved to boost young people s opportunities for decent jobs and better lives Publisher s description Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons,2010

Restoring Opportunity Greg J. Duncan,Richard J. Murnane,2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation **Earth and Mind II** Kim A. Kastens,Cathryn A. Manduca,2012 Articles refer to teaching at various different levels from kindergarten to graduate school with sections on teaching geologic time space complex systems and field work Each section includes an introduction a thematic paper and commentaries
