Egyptians and Assyrians are the outcome of this science portions of which are current in our own thought and language Thus when we speak of commerce the merchant and the market we are going back to traditional knowledge which associated the winged messenger of the gods with the ship in full sail the word merx trade being at the root of the name Mercury and the symbol the hieroglyph for all that the name imports We call the Sun he and the Moon she tracing unconsciously a subtle correspondence between the day and the active male function in nature and between the night and the passive female function We speak of jovial men and infer their connection with the planet Jupiter and all our destructive and hurtful ideas are embodied in such words as to mar martial murder etc linking them to their source in the root marna to strike because the destructive element in nature is represented in our system by the planet Mars
