

# **Narrative Essay on Personal Experience**

Every individual has a tapestry of experiences that shape their worldview, personality, and life path. Among these, certain moments stand out, etched in our memories for the profound impact they have on us. My personal narrative revolves around such a pivotal experience – the first time I stepped outside my comfort zone to lead a community service project. This journey, fraught with challenges, self-doubt, and ultimately, growth, taught me invaluable lessons about leadership, perseverance, and the power of community.

## **The Genesis of the Journey**

Growing up in a small town, opportunities for leadership were scarce, and my introverted nature didn't help. I was comfortable in my bubble, shying away from the spotlight. However, the summer of my junior year in high school presented an unexpected opportunity that would alter the course of my personal and professional development.

### **The Challenge Accepted**

It began when I stumbled upon a local advertisement seeking volunteers to spearhead a community clean-up initiative. Moved by the deteriorating state of our local park, a place that held countless childhood memories, I felt a surge of responsibility. After much deliberation and encouragement from my family, I decided to step up. This decision marked the beginning of a transformative journey, pushing me into uncharted territories of leadership and community engagement.

## **The Learning Curve**

### **Facing the Challenges Head-On**

Embarking on this project was like diving into deep waters without knowing how to swim. The initial phase was overwhelming, filled with logistical nightmares, coordination issues, and a palpable fear of failure. Recruiting volunteers, securing funding, and planning the clean-up activities required skills I had yet to develop. Each hurdle seemed like a test of my resolve, forcing me to adapt and grow.

Lockwood, 1999 The problem this project attempts to solve is to develop a workable moral education in light of the clash between religious forms of moral education and U S Supreme Court decisions concerning them The concept of story and storytelling has been suggested as a unifying focus for disparate prescriptions for moral education Several recent approaches to moral storytelling have been proposed The approaches of William Bennett Nel Noddings and Herbert Kohl are among those which have attempted to combine moral education and storytelling within the last decade Bennett is identified with other theorists whose primary concern is the moral content of a story Noddings is identified as a process theorist whose primary concern is the process of moral storytelling not the content Kohl is identified as a reflection theorist whose approach challenges tradition in the hope of creating a more moral society Each one of these three approaches attempts to provide a comprehensive program of moral education but they fall short of that goal The purpose of this project then is to construct a storytelling moral education program that improves upon earlier approaches Using the three levels of moral thinking posited by R M Hare a three level approach to moral storytelling is proposed The intuitive critical and meta ethical levels of moral thinking that Hare refers to are used to frame a new three level approach to moral storytelling The three level approach combines content process and reflection into a unified prescription for moral education Thus a more
