waist with every hoof beat and stand erect when the correct count was reached And Candland discusses the many attempts to communicate with our closest neighbor the apes We read of Richard Lynch Garner s 1892 experiment living with chimpanzees in Gabon he taught one to say the French word feu and of Gua raised by W N and L A Kellogg alongside their own son Donald and of the latest successes of teaching sign language to such precocious apes as Sarah Sherman Austin and Koko Throughout Candland illuminates the boldest and most intriguing efforts yet to extend our world to that of our fellow creatures And he shows that in the end our effort to make contact is a reflection of the way in which we as a species create and order our universe Humans have long shown a wish to connect with the silent minds around them In assembling and interpreting the compelling tales in this book Candland offers us a new understanding not only of the animal kingdom but of the very nature of humanity and our place in the great chain of being **True Polic Stories Magazine** ,1924
