parallel cultural forces that depended on one another to expand the horizons of books music and out of this world imagery In doing so he presents a whole generation of revered musicians as the sci fi obsessed conjurers they really were from Sun Ra lecturing on the black man in the cosmos to Pink Floyd jamming live over the broadcast of the Apollo 11 moon landing from a wave of Star Wars disco chart toppers and synthesiser wielding post punks to Jimi Hendrix distilling the purplish haze he discovered in a pulp novel into psychedelic song Of course the whole scene was led by David Bowie who hid in the balcony of a movie theater to watch 2001 A Space Odyssey and came out a changed man If today s culture of Comic Con fanatics superhero blockbusters and classic sci fi reboots has us thinking that the nerds have won at last Strange Stars brings to life an era of unparalleled and unearthly creativity in magazines novels films records and concerts to point out that the nerds have been winning all along
