

A particle P of mass 0.25 kg moves upwards with constant speed $u \text{ m s}^{-1}$ along a line of greatest slope on a smooth plane inclined at 30° to the horizontal. The pulling force acting on P has magnitude $T \text{ N}$ and acts at an angle of 20° to the line of greatest slope (see diagram). Calculate

(i) the value of T . [3]

(ii) the magnitude of the contact force exerted on P by the plane. [3]

The pulling force $T \text{ N}$ acting on P is suddenly removed, and P comes to instantaneous rest 0.4 s later.

(iii) Calculate u . [4]

Tourism and Violence Hazel Andrews, 2016-02-24 Exploring the connection between tourism and violence this book draws on a range of disciplinary approaches including social anthropology cultural geography sociology and tourism studies Ideas and concepts of violence have long been explored in the social sciences literature but in relation to tourism studies specifically the concept has rarely been problematised Drawing on a range of case studies this book demonstrates the relationship between tourism and violence both in its overt physical form and in the social structures and symbolic landscapes that underpin touristic activity Tourism and Violence offers a timely intervention in this field by bringing together for the first time work by scholars who in their different ways are engaging with the concept of violence within touristic settings and practices This unique book paves the way for future research that will probe further the intersections between violence and tourism **World of Walls** Said Saddiki, 2017-10-09 We're going to build a wall Borders have been drawn since the beginning of time but in recent years artificial barriers have become increasingly significant to the political conversation across the world Donald Trump was elected President of the United States while promising to build a wall on the Mexico border and in Europe the international movements of migrants and refugees have sparked fierce discussion about whether and how countries should restrict access to their territory by erecting physical barriers Virtual walls are also built and crushed at increasing speed In the post 9/11 era there is a greater danger from so-called transnational non-state actors and computer hacking and cyberterrorism threaten to overwhelm our technological barriers In this timely and original book Said Saddiki scrutinises the physical and virtual walls located in four continents including Israel India the southern EU border Morocco and the proposed border wall between Mexico and the US Saddiki's detailed analysis explores the tensions between the rise of globalisation which some have argued will lead to a borderless world and the end of the nation-state and the rapid development in recent decades of border control systems Saddiki examines both regular and irregular cross-border activities including the flow of people goods ideas drugs weapons capital and information and explores the disparities that

are reflected by barriers to such activities He considers the consequences of the construction of physical and virtual walls including their impact on international relations and the rise of the multi billion dollar security market World of Walls The Structure Roles and Effectiveness of Separation Barriers is important reading for all those interested in the topics of immigration border security international relations and policy **Parliamentary Debates (Hansard)**. Great Britain. Parliament. House of Commons,2013 **Dream City** Conrad Kickert,2019-06-11 Tracing two centuries of rise fall and rebirth in the heart of downtown Detroit Downtown Detroit is in the midst of an astonishing rebirth Its sidewalks have become a dreamland for an aspiring creative class filled with shoppers office workers and restaurant goers Cranes dot the skyline replacing the wrecking balls seen there only a few years ago But venture a few blocks in any direction and this liveliness gives way to urban blight a nightmare cityscape of crumbling concrete barbed wire and debris In Dream City urban designer Conrad Kickert examines the paradoxes of Detroit s landscape of extremes arguing that the current reinvention of downtown is the expression of two centuries of Detroiters conflicting hopes and dreams Kickert demonstrates the materialization of these dreams with a series of detailed original morphological maps that trace downtown s rise fall and rebirth Kickert writes that downtown Detroit has always been different from other neighborhoods it grew faster than other parts of the city and it declined differently forced to reinvent itself again and again Downtown has been in constant battle with its own offspring the automobile and the suburbs the automobile enabled and modernized itself though parking attrition and land consolidation Dream City is populated by a varied cast of downtown power players from a 1920s parking lot baron to the pizza tycoon family and mortgage billionaire who control downtown s fate today Even the most renowned planners and designers have consistently yielded to those with power land and finances to shape downtown Kickert thus finds rhyme and rhythm in downtown s contemporary cacophony Kickert argues that Detroit s case is extreme but not unique many other American cities have seen a similar decline and many others may see a similar revitalization International Financial Statistics Yearbook, 2017 International Monetary Fund.
