evaluations mixed media campaigns and much more *Comprehensive Reference Manual for Signers and Interpreters*
Cheryl M. Hoffman, 1994 The COMPREHENSIVE REFERENCE MANUAL FOR SIGNERS AND INTERPRETERS contains more
than 6 500 entries including vocabulary and idioms with cross references and sign descriptions It is intended mainly for
interpreters but can also be used effectively by signers who have at least a working knowledge of sign language This manual
is employed most profitably when the user reads the entire sign description before manually executing the sign Since it is
written for the right hand dominant signer those who are left hand dominant must reverse the descriptions where
appropriate Due to the three dimensional nature of sign language it is difficult if not impossible to learn how to sign from the
two dimensional pages of any book Additionally knowledge of deaf culture is critical to contextually appropriate signing
Therefore a qualified teacher is of utmost importance to the sign language student who wishes to build real competence in
sign production proper grammatical construction and the all important understanding of deaf culture Dedicated and
motivated interpreters and signers are constantly striving to increase their inventories of internalized signs Sometimes
however this knowledge can slip away if it is not frequently called upon either expressively or receptively It is with this
human frailty in mind that this book has been written not for those who have had no sign language experience but for serious
interpreters and signers whose memories need occasional assistance and who wish to increase their sign language
