**The Corruption Cure** Robert I. Rotberg, 2017-04-24 Why leadership is key to ending political and corporate corruption globally Corruption corrodes all facets of the world s political and corporate life yet until now there was no one book that explained how best to battle it The Corruption Cure provides many of the required solutions and ranges widely across continents and diverse cultures putting some thirty five countries under an anticorruption microscope to show exactly how to beat back the forces of sleaze and graft Robert Rotberg defines corruption theoretically and practically in its many forms describes the available legal remedies and examines how we know and measure corruption s presence He looks at successful and unsuccessful attempts to employ anticorruption investigative commissions to combat political theft and venal behavior He explores how the globe s least corrupt nations reached that exceptional goal Another chapter discusses the role of civil society in limiting corruption Expressed political will through determined leadership is a key factor in winning all of these battles Rotberg analyzes the best performing noncorrupt states to show how consummate leadership made a telling difference He demonstrates precisely how determined leaders changed their wildly corrupt countries into paragons of virtue and how leadership is making a significant difference in stimulating political anticorruption movements in places like India Croatia Honduras and Lebanon Rotberg looks at corporate corruption and how it can be checked and also offers an innovative fourteen step plan for nations that are ready to end corruption Curing rampant corruption globally requires strengthened political leadership and the willingness to remake national political cultures Tougher laws and better prosecutions are not enough This book enables us to rethink the problem completely and solve it once and for all **Africa and France** Dominic

Richard David Thomas, 2013 This stimulating and insightful book reveals how increased control over immigration has changed cultural and social production in theatre literature and even museum construction Dominic Thomas's analysis unravels the complex cultural and political realities of long standing mobility between Africa and Europe Thomas questions the attempt to place strict limits on what it means to be French or European and offers a sense of what must happen to bring about a renewed sense of integration and global Frenchness "La" mystique d'al-Gazzālī Miguel Asín Palacios, 1914
