Jean-Noël Blondin, 1788 **A History of Performing Pitch** Bruce Haynes, 2002-11-06 This is the first complete survey of the historical pitch standards used by musicians during the last four centuries Written from a practical perspective and addressed to performers it is the first book to attach frequency values to pitch names and describe where when and why various historical pitch levels were used It surveys a period from the 16th century to the present and focuses on Italy France Germany the northern and southern Netherlands and the Habsburg Lands following the developments in the design and function of instruments and how they influenced and were influenced by pitch changes The History of Performing Pitch explores the relationships between pitches like Chorton Cammertone and Consort Pitch and what pitch frequencies they represented at various times and places It also examines what effect pitch differences had on musical notation and choice of key and discusses practical considerations musicians would have had to make when transposing especially with regards to the range of singers voices What distinguishes this book from previous pitch studies is that it has been written since the rise of the early music revival within the context of the growing understanding of how early instruments work This development has provided a new source of empirical information not previously available which allows this book to base its conclusions on a much larger and more relevant sample than has ever been possible before It refers to the original pitches of some 1 382 historical instruments including cornetts Renaissance flutes traversos recorders clarinets organs pitchpipes and automatic instruments from all over Europe and compares this information with music and written texts While this study avoids categorical answers where historical information is not yet sufficient to justify them it locates a number of historical pitch levels discovers several that were previously unnoticed and disproves several common myths about pitch **Histoire générale de la musique depuis les temps les plus anciens jusqu'à nos jours** François-Joseph Fétis, 1876 **Dans le silence de ton cœur** Alice Ranucci, 2016-02-17 Claudia a seize ans Issue d'une famille bourgeoise privilégiée elle n'a jamais eu manquer de rien Mais de petite fille sage et introvertie elle s'est transformée en une jolie adolescente sereine de soi arrogante pleine de mépris envers le monde constamment en butte à l'autorité parentale Sa mère de ses parents de la voir s'écarter des cours et si pleine de hargne et de rancune l'envoie faire du bénévolat dans un centre d'accueil pour jeunes immigrés En vain Quand Claudia rentre un soir après avoir disert un certain temps la maison familiale elle s'attend une scène mais personne n'est là Son père ne revient qu'au milieu de la nuit en larmes sa mère a trouvé la mort dans un accident de voiture Petit petit coincée entre son père qui noie son chagrin dans l'alcool et semble ne plus la voir son propre deuil impossible et son sentiment de culpabilité Claudia va prendre conscience de ses erreurs Cette redécouverte de soi est lente et douloureuse mais va lui permettre de faire la paix avec elle-même et son passé **Histoire Générale de la Musique depuis les temps les plus anciens, etc** François Joseph Fétis, 1876 Le dico de la contrepèterie Joël Martin, 1997 L'auteur a décidé d'aider ses semblables en
