Le Salafisme Aujourd'hui Mouvements Sectaires En Occident:

Egyptian Diaspora Activism During the Arab Uprisings Lea Müller-Funk, 2018-11-02 Diaspora politics is often expressed as an emancipating experience and can therefore give agency to migrants Yet rather than interpreting transnational political practices as globally liberal or cosmopolitan Müller Funk's findings underline that diaspora politics is a highly diverse political field which can reinforce political fragmentation among migrant collectivities This volume explores the controversial topic of diaspora politics the political activities of migrants who aim to influence the domestic or foreign policy of their country of origin The revolutions in 2010-11 represented a major political upheaval in the Middle East which politicised Arabs across borders on a grand scale Müller Funk explores the links between recent political developments in Egypt between 2011 and 2013 and emigration More specifically she examines the question of how the revolution in and its aftermath influenced emigrants political perceptions and actions regarding their homeland The book takes an interdisciplinary macro and micro approach by investigating policies which influence migrants political transnational behavior as well as by looking at individual activists perspectives This volume will be of great interest to scholars of international relations security studies political theory politics and middle east studies

Islamic Movements of Europe Frank Peter, Rafael Ortega, 2014-09-08 Islam in Europe and Islamophobia are subjects of vital global importance which currently preoccupy policy makers and academics alike Through the examination of various European Muslim groups and institutions that have branched off from Islamic movements including the Muslim Brotherhood Hizb ut Tahrir and Jama'at al Islami this book outlines the configuration of social political and religious processes that have given rise to new kinds of European Muslim organisations The authors offer a new perspective on these Muslim groups and seek to reclaim them from the often highly charged public debates by placing them within the context of their origins as politicised religious movements on the one hand and their ongoing incorporation into European societal structures on the other They also consider the relationship of these organisations to their parent movements and examine the presence of Islam in European education and higher education institutions Taking into account the connection between Islamic movements and the perceived surge of Islamophobia in Europe this book does not debate the question of whether these groups fit into normative or cultural structures of European nation states but rather examines how these structures have changed through their interaction with these groups and the growing Muslim population within Europe It does not consider political Islam as the antithesis to a refined notion of secularism but as a form of public religion which contributes to the ever changing structure of Europe's secular regimes Featuring the work of more than 40 scholars from around the world this is the comprehensive guide to Islamic movements in Europe offering original definitive perspectives on Muslims and Islam in Europe today It will be essential reading for policy makers political commentators and scholars alike

Margins of Islam Gene Daniels, Warrick Farah, 2018-09-12 A global journey revealing multiple expressions of the Islamic faith We no longer have any excuse to train

others to reach all Muslims in the same way J D Payne What do you do when Islam does not adequately describe the Muslims you know Margins of Islam brings together a stellar collection of experienced missionary scholar practitioners who explain their own approaches to a diversity of Muslims across the world Each chapter grapples with a context that is significantly different from the way Islam is traditionally presented in mission texts These crucial differences may be theological socio political ethnic or a specific variation of Islam in a context but they all shape the way we do mission This book will help you discover Islam as a lived experience in various settings and equip you to engage Muslims in any context including your own

The Oxford Handbook of European Islam Jocelyne Cesari, 2015 For centuries Muslim countries and Europe have engaged one another through theological dialogues diplomatic missions political rivalries and power struggles In the last thirty years due in large part to globalization and migration from Islamic countries to the West what was previously an engagement across national and cultural boundaries has increasingly become an internalized encounter within Europe itself Questions of the Hijab in schools freedom of expression in the wake of the Danish Cartoon crisis and the role of Shari'a have come to the forefront of contemporary European discourse The Oxford Handbook of European Islam is the first collection to present a comprehensive approach to the multiple and changing ways Islam has been studied across European countries Parts one to three address the state of knowledge of Islam and Muslims within a selection of European countries while presenting a critical view of the most up to date data specific to each country These chapters analyze the immigration cycles and policies related to the presence of Muslims tackling issues such as discrimination post colonial identity adaptation and assimilation The thematic chapters in parts four and five examine secularism radicalization Shari'a Hijab and Islamophobia with the goal of synthesizing different national discussions into a more comparative theoretical framework The Handbook attempts to balance cutting edge assessment with the knowledge that the content itself will eventually be superseded by events Featuring eighteen newly commissioned essays by noted scholars in the field this volume will provide an excellent resource for students and scholars interested in European Studies immigration Islamic studies and the sociology of religion

Le salafisme d'aujourd'hui Samir Amghar, 2011 Depuis les attentats du 11 septembre les pouvoirs publics s'inquiètent de l'influence du salafisme en Europe et en Amérique du Nord Ce mouvement fondamentaliste ne saurait pourtant se réduire à ses rives terroristes Il est désormais une référence pour une partie des musulmans qui vivent en Occident puisqu'il propose une réponse aux questions morales sociales et politiques que se posent les populations d'origine immigrée À la complexité du monde moderne aux incertitudes morales et identitaires aux difficultés sociales et économiques des quartiers de relégation le salafisme oppose la voie des pieux ancêtres ces premiers disciples du Prophète qui connurent un destin hors du commun Ce n'est pas le moindre de ses paradoxes que de se prêter une lecture génériquement rationnelle en s'engageant dans l'étude du Coran et de l'arabe classique les jeunes salafis prennent l'ascendant sur leurs parents illettrés et fondent ainsi une nouvelle identité sociale Cette enquête passionnante menée sur deux continents la lumière des travaux de Max Weber sur les sectes reconstitue l

univers social et idéologique des groupes salafistes en analysant leurs techniques de mobilisation et leur travail de socialisation auprès des jeunes

Le phénomène Boko Haram Bette Zachée, 2016-04-15 Que sait-on de ce mouvement obscur qui est parti des milieux islamistes modestes du nord du Nigeria pour prendre de l'ampleur en russissant l'exploit d'exporter la terreur dans les foyers des pays environnants ? Trempé dans l'univers religieux dont il revendique une certaine exclusivité, le mouvement parle un langage outrageusement hostile à la raison. Il veut se fonder sur une légitimité inhérente à une fausse transcendance qu'il mêle à un pragmatisme violent. À qui pourrait bien profiter cette tourmente instaurée par une des pires sectes qu'aient connues le continent africain ?

L'islam et la cité Julien Talpin, Julien O'Miel, Franck Frégosi, 2017 L'islam constitue aujourd'hui un objet conflictuel dans le champ politique français. Il serait vecteur de repli sur soi ou l'objet d'instrumentalisations politiques. Pourtant, à distance des discours globalisants prévalant dans l'espace public et médiatique, ce livre entend démontrer que cette religion peut constituer une ressource dans la mobilisation d'acteurs que tout le monde disposait d'apathie dans un contexte où la laïcité contraint les formes d'engagement s'appuyant sur l'expérience religieuse. Il vise tout particulièrement à faire les analyses qui feraient agir la communauté musulmane comme un seul et même groupe social homogène. En suivant les acteurs au plus près dans différents quartiers populaires, ce livre restitue les contraintes très fortes qui pèsent sur l'action collective des groupes minoritaires, rebours d'une lecture qui n'y verrait que des revendications communautaristes. Cet ouvrage démontre que les engagements inspirés de l'islam recherchent avant toute chose la légitimité. Page 4 of cover

Religion et vérité Jean Grondin, Garth Green, 2017 Religion et vérité sont deux termes que l'on a perdu l'habitude de penser ensemble. C'est que l'on associe souvent la vérité à la science et l'ordre des connaissances vérifiables relevant le religieux, celui de l'invérifiable ou des sentiments. Ce volume invite un nouvel examen de cette distribution en rappelant que les religions ont de tout temps levé une prétention de vérité et que c'est bien une vérité que leurs adhérents reconnaissent en elle. Quelle est cette vérité en quoi est-elle défendable et comment se manifeste-t-elle dans les grandes religions voire dans l'art et la philosophie elle-même ? Et comment la sphère politique doit-elle composer avec elle ? Partant d'un entretien avec Charles Taylor sur la constellation de la géographie qui est le centre de ce volume, réunissent les meilleurs spécialistes des religions judaïsme, christianisme, islam, confucianisme et des philosophes de plusieurs horizons différents, philosophie herméneutique, philosophie analytique, histoire de la philosophie, philosophie politique, théologie. Il propose un état des lieux rafraîchissant du champ de la philosophie de la religion qui connaît un essor inouï dans la pensée contemporaine
