Effective Strategies To Develop Rural Health Workforce In Low and Middle-Income Countries (LMICs) Belinda Gabrielle O'Sullivan, Pratyush Kumar, Ian Couper, Matthew Richard McGrail, 2021-07-29      Servant Leadership: Research and Practice Selladurai, Raj, Carraher, Shawn, 2014-03-31 Leaders represent a necessary part of any organizational structure and leadership styles can vary greatly between individuals. Servant leadership is one such leadership style which is helping individuals guide and encourage others within their organization. Servant Leadership Research and Practice explores the concept of rethinking the leader-subordinate relationship structure through the dissolution of an authoritarian leadership style. This book supports current and future leaders through relevant discussions on methodologies and tools in support of servant leadership and is designed for use by business managers, executives, scholars, and upper-level students.

Featured in the second edition are five new school case studies with insights about the complexity of teacher leadership, expanded discussion of the capacity building process for teacher leaders and principals, an outline of a school development program based on teacher leadership and parallel leadership with exercises for systematically developing teacher leaders.
