Jessica S Story Vampire Series Volume 2:

Fourth Wave Feminism in Science Fiction and Fantasy Valerie Estelle Frankel, 2019-11-22 Television is entering a unique era in which women and minorities no longer serve under white captains but take the lead and all the other roles as well. In a brilliant new universe where the intersectional values of fourth wave feminism are becoming more widespread, fantasy and science fiction are leading the charge. Shows from Star Wars to Doctor Who are rewriting their traditional storylines to include more well rounded and racially diverse female characters. Steven Universe, DC's Legends of Tomorrow, Orphan Black, and Sense8 highlight queer characters and experiences. Dystopias like Marvel's Jessica Jones and The Handmaid's Tale show the female perspective entirely, guiding viewers from trauma to self determination. In fantasy and horror, Wynonna Earp, Game of Thrones, Supergirl, Vikings, American Horror Story, Black Mirror, and The Walking Dead reveal how much the story changes with a spectrum of women reclaiming the text from white straight young cisgender men. These new shows are intersectional, digital, global, critical, and political, with fan responses changing the content and cutting edge platforms like Netflix and Hulu shaking up the format.

The Best New Horror 6 Stephen Jones, 2013-11-28 The Best New Horror has established itself as the world's premier annual showcasing the talents of the very best writers working in the horror and dark fantasy field today.
