allowing for the confrontation of the contradictory discourses in the philosophical debates and enabling them to engage in dialogue instead of establishing the authorial voice as the sole valid discourse in the text Through those contradictions the philosophical content takes on a different form that of a refusal of systematic discourse Sterne and Diderot do not offer a solution to the various questions debated in their novels However they do offer a philosophical approach whereby the confrontation of contradictory ideas creates a dynamic for the pursuit of truth By engaging in dialogue and constantly opening questions where there is no single right answer Sterne and Diderot redirect the focus of the reader and invite him to perceive truth not as a destination to be reached or as a closed conclusion but as being present in the quest itself in the ongoing dialogues and debates
